NOTE BY TECHNICAL SECTION.

Name of work. Constructing bath rooms
 at the Annexe Market, Madras.
 Amount of Estimate Rs. 2,700

vide also Technical note
 of 12 Oct. 97
 W. H. H. 28.11.97

With reference to this office letter
 W. 4480 C dated 20th March 1897, the
 Consulting Architect submits a
 plan showing the proposed work
 to be done to the Annexe building
 at the Annexe Market, together with
 the estimate.

The estimate has now been
 examined in detail. The length
 of the West end shade has been
 incorrectly estimated, it has now
 been altered in pencil, the
 saving being only Rs. 12, the a-
 mount of the estimate has not
 been reduced, but the item of ex-
 traordinary & petty supervision
 is added to retain the original.

The proposal is to erect on each
 side of the upper floor, a room 18
 this room will be divided in each
 by a plank partition across to

from a bath room & latrine each
15' x 9', as shown on plan.

Provision has been made for
sun shades on either side of the
covered passage in lower floor also
over ~~four~~ ^{two} doorways north & south
of the passage. These sun shades
will be roofed with manganese tiles
& supported on brick brackets pro-
jecting 5 feet from the wall surface,
as shown on plan, cross section C.D.

The quantities for roof timbers
are correct & the rates entered
are fair, except for tinning with
bricks on edge for which a better
should be submitted, as
the rate exceeds the schedule
rate of Rs 26.00 per square
foot.

11.11.97

x four.

This rate is fair too. I believe.
It is less for ordinary tinning
but for drop tinning
particularly adapted for
keeping a building water tight.
This is a specialty of Mr
Harris who did furnish data
on a former occasion. They should
however be put up.
Sanctioning order to be
drafted.
