Masonry hut

Estimate of Rs. 390 for constructing a — at lock No. 14, Kurnool-Cuddapah canal, Kurnool division, sanctioned.

The following estimate is sanctioned :—

Irrigation.
Account.

READ—the following paper:—

From J. C. LARMINIE, Esq., M.I.C.E., Superintending Engineer, III Circle,
Bellary, to the Chief Engineer for Irrigation, Madras, dated Nandyal, 18th
March 1898, No. 6443 I.

I have the honour to submit, for sanction of Government under Code I, X, 15 (iii), plan, report and estimate amounting to Rs. 390 for constructing a masonry hut at lock No. 14, Kurnool-Cuddapah canal, 3rd section, for the use of the lock lascar as a residence.

ENCLOSURE.

REPORT to accompany the estimate for constructing a masonry hut in lock No. 14.

Amount of Estimate	...	...	...	...	...	...	...	Rs.
								390

The present hut is composed of bamboo splits and concrete with thatched roof and is in a very dilapidated state and perfectly unfit to live in. It is built on made up earth adjoining the lock chamber and is also exposed to very extraordinary floods of Galeru. It is proposed to build a pukka masonry hut for the use of the lock lascar, whose continued stay in the lock is quite necessary. The want of a pukka building being long felt, this estimate is prepared and submitted for sanction. The ground being made earth, $2\frac{1}{2}$ feet of concrete is allowed in the estimate to avoid sinking or crack. The old wood from ruined lock huts will be used for jack rafters and wall.

Stones to come from about six miles.

(Signed) J. WILLIS,
Sub-divisional Officer.

The earth has fairly settled down now, and will, I think, support a masonry building, provided the foundations are broad.

It is not proposed to recover rent from the occupant, whose pay is only Rs. 15.

12th February 1898.

(Signed) J. JOHNSTON,
Executive Engineer.

No. 126 I.

Note by the Chief Engineer for Irrigation.

The accompanying estimate of Rs. 390 submitted by the Superintending Engineer, III Circle, provides for constructing a masonry hut at lock No. 14, Kurnool-Cuddapah canal, 3rd section, for housing the lock lascar, whose duty requires his continued presence at the lock.

The estimate may be sanctioned.

2nd April 1898.

(Signed) W. HUGHES,
Chief Engineer for Irrigation.
