London, S.W.

11th November 1898.

Sir,

Referring to your letter No.2338 W. dated 8th September 1898, I have the honour to inform you that the headstocks for the Tirupati Water Works have been ordered. The requirements of the Executive Engineer, North Arcot Division, expressed in his letter of 20th August 1898, para.2, can be carried out. The union nut will be of gun metal, and a small square plate will also be placed on the bottom of the column, the rod being made square where it passes through the plate, so as to prevent the rod from turning, and becoming unscrewed.

I have the honour to be, Sir,

Your obedient Servant,

R. Crozier

Deputy Director General of Stores.

The Secretary to the
Government of Madras,
Public Works Department.
