FURT

No. 1689/393 G

Presidency Port Office,
Madras, // November 1898.

From

Commander H.A. Street, R.I.M.,
Presidency Port Officer,
Madras.

To

The Secretary to Government,
Marine Department,
Chepak.

Sir,

x
In my Inspection Report recorded in G.O., No. 760, Marine, dated 5th November 1896, I remarked that a scheme for a jetty and road at Malpe was under the consideration of the Collector of South Canara. The Collector has since forwarded to me the accompanying estimate, Plans, Report and specification prepared by District Board Engineer which shew what that scheme is. Having had occasion to make a reference to the Superintending Engineer, 4th Circle, in connexion with this scheme that officer required certain additional information on technical points for which the District Board Engineer had to be applied to. The correspondence that has since passed between the District Board Engineer and this department shews, however, that that officer is not prepared to afford the additional information required, and probably his department does not care to undertake the work if approved by Government. Under the circumstances I request that the estimate, plans, &c. herewith forwarded may be transferred to the Superintending Engineer, 4th Circle, and that officer authorised to prepare a fresh estimate on the lines of the District Board Engineer's Report and specification (which have the joint approval of the Collector and myself) and in supersession of the estimate of Rupees 4,250 referred to in para 4 of G.O.

No

No. 1937, W, dated 3rd August 1898.

2. A provision of Rupees 5000 will be made in the
Budget for 1899/1900 for the work above proposed.

I have the honour to be,

Sir,

Your Obedient Servant,

A. A. Theet

Commander, R.I.M.,
Presidency Port Officer.
