Telegraphic Address:
INDIAMEN, LONDON.

India Office,

Whitehall, S.W.,

28th October 1898

Sir
Referring to your Public Works Indent
N^o 8 dated 22nd June 1898, in item 22 there is
a demand for 5 tons of wire iron C N^o 8
at an estimated cost of 2^d per lb total
£46. 13. 9.

As however 5 tons would cost
nearly double the estimate at 2^d per lb
(viz £93. 6. 8,) it appears doubtful whether
so large a quantity as 5 tons is really required.

I have the honor to request that you
will inform me what quantity of wire
should be supplied, and also what the
letter C signifies; does it refer to the gauge
of the wire, namely 8 S.W.G., or is it intended
to indicate that galvanized wire is required.

Pending your reply to this letter
the supply of the wire must necessarily
be suspended.

I have the honor to be
