PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following paper:—

From the Inspector-General of Registration, Madras, G.No. 331, dated 19th January 1898:—

I have the honour to request that early orders may be issued for the construction of a new office on the standard design for the Registrar of Salem. The present building consists of two rooms, each measuring 20 feet by 16 feet. The record room is crammed with almirahs and racks (13 and 2 in number), and the planks fixed to the walls are also filled with Fort St. George Gazette files and other Miscellaneous records. For want of space, four more almirahs are placed in the Registrar's room to the great inconvenience of the Registrar and his staff of nine clerks, two apprentice clerks and one Probationer. I inspected the office last year and found that the accommodation was altogether insufficient. I beg accordingly to suggest that this building be utilized for the Shevvapet Subregistry office which is now held in a rented house a few furlongs off, and a new building constructed for the Registrar in the same compound.
