(H.E. No. 1126-VZ dated 3.3.98)
No 145 I of 18-4-98

Note by the Chief Engineer for Irrigation.

For ensuring a better supply of
water to the Kura channel, the Exec-
utive Engineer in charge, First Circle,
submits, for sanction, an estimate
for constructing a dam across the
Kothakota river at Munthamami-
di, Vizagpetam division, to replace
the one that has been washed away.
The estimate has been increased in the
Office from Rs. 5,000. to Rs. 5,100, owing
to errors found in the detailed
estimate.

The estimate, as corrected, may
be sanctioned.

The Mentamamidielle ~~is~~ rough stone
dam thrown across the Kotta Kotta river
near Kottakota. The dam is annually
washed away and at present does not exist.

The Ira Channel depends for its supply on this dam and thus was perforce at all times highly ^{precarious} precarious as the dam usually goes during the first fresh.

A. Shalile dam is now proposed to ensure the supply to the Irra Channel being more regular and to derivate a large annual outlay.

It is expected that there will be an increase in the output under the new channel but how much it has been found impossible to ascertain.

All work will be carried out in accordance with the Standard Specifications.
