JUNE.

Contribution Works

The execution by the Public Works Department of certain — in the V Circle, sanctioned; and the Superintending Engineer's attention invited to the Chief Engineer's remarks in regard to submitting annually for orders of Government lists of — to be undertaken by the Public Works Department.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.

Read—the following papers:—

From Colonel A. W. SMART, R.E., Officiating Superintending Engineer, V Circle, to the Chief Engineer for Irrigation, dated Chepâk, 3rd June 1898, No. 215 E.I.

Adverting to your memo., No. V./24 S.A., dated 22nd March 1898, I have the honour to forward herewith copies of the statements as per margin and to request that sanction of Government may be obtained to the recovery of the several amounts of contribution therein mentioned.

1 Statement showing the amounts to be contributed by some shrotriemdars for repairs to certain irrigation works in the South Arcot division for the year 1897–98.
1 Do. do. for the year 1896–97.

2. I take this opportunity to request you to reconsider the Examiner, Public Works Accounts' opinion stating that in each case the specific sanction of Government is necessary before a contribution work is begun.

3. When writing this office No. 73 E.I., dated 26th February 1898, it was thought that a general sanction of Government might be obtained to obviate the necessity of obtaining such sanction to the execution of the works which are merely annual maintenance repairs, year after year.

Enclosures.

Statement showing the amounts to be contributed by some Shrotriemdars for repairs to certain Irrigation Works as decided in Chief Engineer for Irrigation's No. V./106 S.A., dated 1st June 1896.

No. 173 I.

Note by the Chief Engineer for Irrigation.

The Superintending Engineer, V Circle, forwards two statements for the sanction of Government to the execution by the Public Works Department, during the past and current official years, of repairs to contribution works. The sanction applied for may be accorded.

2. The Superintending Engineer asks also for a reconsideration of the opinion expressed by the Examiner, Public Works Accounts, that in each case the specific sanction of Government is necessary before a contribution work is begun, and explains that his object in having applied for a general sanction was to obviate the necessity of obtaining specific sanction to the execution of the works which are merely annual maintenance repairs, year after year. As the general sanction he wants is opposed to the instructions laid down in the Public Works Department Code, Volume I, chapter IX, paragraph 79, the Superintending Engineer should continue to submit annually, for the orders of Government, lists similar to those now dealt with.

14th June 1898.

(Signed) W. HUGHES,
Chief Engineer for Irrigation.

ORDER—No. 474 I., dated 21st June 1898.

The execution by the Public Works Department of the works enumerated in the lists is sanctioned.

2. The attention of the Superintending Engineer, V Circle, is drawn to paragraph 2 of the foregoing note by the Chief Engineer for Irrigation.
