Camp

Sir,

Despd. 20-6-1898

I have the honour to bring to your notice, that hitherto boats plying on a 6 weeks license in the Western Delta, Godavari, have hitherto been numbered and measured at Chetipeta.

2. Rule 5 of the Revised Navigation Rules printed with G.O. no. 3193 of 18.4.98, provides that "Boats which have not been previously licensed must be taken to a licensing station for measurement."

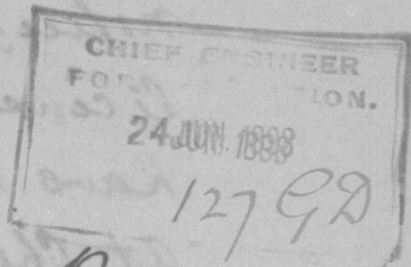

3. Chetipeta is not one of the licensing stations specified in para 2 of the notification appended to the rules.

4. The Executive Engineer Godavari Western Division points out that Chetipeta is particularly convenient for the owners of small boats plying in a 6 weeks license, which never leave the Delta, and suggests that boats may be numbered and measured

measured at Chelmsford as heretofore.

5. Any confusion might be avoided by affixing the letters "G. W." to numbers assigned at Chelmsford.

6. The suggestion appears to me to be a good one, and I request favor of your orders on the subject.

I have the honour to be,

Yr

Yours most obedt St.

W. B. Morgan
