Sub Court, Palghat.

28th July 1897.

From

M.R.Ry. A. Venkataramana Pai, Avargal,

Subordinate Judge, Palghat.

To

The District Judge,

South Malabar, Calicut.

Sir,

In continuation of my letter dated 3rd October 1896, No. 834, I have the honor to bring to your notice the present condition of the new copyist building.

2. Last year I reported that the upper portion of the walls had become wet with water absorbed from the terrace. This year, too, the same thing has taken place and there is also considerable leakage. There is no longer any doubt that an ordinary tiled roof must be provided as early as possible. Otherwise, the timbers of the terrace cannot last long and the building is likely to be damaged and become unfit for use.

3. I, therefore, request that the Public Works Department may be communicated with and that the necessary application may be made to Government for sanction for adding an upper storey to the building with a view to its being used as Court rooms for the Sub Court and the District Munsif's Court as suggested in my letter of 3rd October last.

Sir,

In reply to your No.1169 dated 31st July 1897 I have the honor to state that there is no doubt that the complaint of the Subordinate Judge of Palghat is reasonable and that the best way to remedy the defect is to build an upper storey over the copyists' rooms with a sloping tiled roof. As, however, the cost of this will be more than Rs.500, the sanction of Government must be obtained.

I have made ^{a rough} estimate and I think the cost of the upper storey will be about Rs.3,000.

From

D. W. G. Cowie, Esquire,
Registrar of the High Court of Judicature, Madras.

To

The Honorable Mr. A. T. Arundel, I.C.S.,
Chief Secretary to the Government of Madras.

Honorable Sir,

The Sub Judge of Palghaut having reported that the terraced roof over the new copyist rooms attached to his Court was in a very unsatisfactory state owing to leakages due to defective construction, the Executive Engineer, West Coast Division, on being addressed by the District Judge, reported that the best way to remedy the defect was to build an upper storey over the rooms with a sloping tiled roof at a cost of Rs. 3000.

I am therefore directed to forward the letters of the Sub Judge (No. 588 dated 28th July 1897) and of the Executive Engineer (No. 1728 M dated 15th November 1897) and to request that Government may be pleased to direct the D.P.W. to prepare the necessary plans and estimate at an early date.

I have the honor to be,

Honorable Sir,

Endorsement:- No. 427.

Order

Ref. on C.No. 2655/97

Transferred to the Public Works
Dept. with a request that the necessary
instructions for the preparation of
plans and estimate for the work in
question may be prepared. It is observed
that though the estimate for repairs &c.
to the Palghaut Courts amounted to Rs.
4,250 the plans have never been seen
by this Dept. It is further remarked
that the present additional expendi-
ture could apparently have been avoided
if the sloping roof, usual in Malabar
offices, had been adopted in place of
the terraced one.
