Reservoirs on the Tungabhadra

Requesting the Resident at Hyderabad to obtain the permission of His Highness the Nizam's Durbar for making surveys in the neighbourhood of Nadiri, Koregal, &c., for the construction of —, and stating that compensation will be paid for any injury that may be done to land or crops.

PUBLIC WORKS DEPARTMENT.

Irrigation.

LETTER—from

J. C. LARMINIE, Esq.,

*Ag. Joint Secretary to the Government of Madras,**Public Works Department,**Irrigation Branch,*

To

THE RESIDENT AT HYDERABAD.

SIR,

The Madras Government has under contemplation the construction of one or more reservoirs on the Tungabhadra. As any reservoirs would necessarily extend over a portion of His Highness the Nizam's territory, I am directed to ask that the permission of His Highness' Durbar may be obtained to enable this Government to make the necessary surveys in the neighbourhood of Nadiri, Koregal, or wherever else there may appear to be suitable sites.

2. When a line for the dam or embankment of a reservoir has been selected, shafts will have to be sunk along it to ascertain the nature of the sub-soil. Such compensation as His Highness' officers may settle will be paid for any damage to land or crops done in sinking the shafts.

I have the honour to be,

Sir,

Your most obedient servant,

(Signed) J. C. LARMINIE,
Ag. Joint Secy. to Government,
Irrigation Branch.

OOTA CAMUND,
21st July 1898.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.

READ—the following paper:—

No. 199 I.

Note by the Chief Engineer for Irrigation.

As one or more reservoirs will have to be constructed sooner or later on the Tungabhadra if on full investigation it is found feasible to do so, it would be advisable to make the necessary surveys soon. For this the permission of His Highness the Nizam's Government is required.

2. The site, just above the Valavapur-Koregal anicut, will in all probability prove to be the best above Hospet, but the river higher up will be examined wherever it is possible that there may be an outcrop of good rock. If the project for irrigation in Bellary district east of the Daroji Hills is finally abandoned, good reservoir sites will be sought for between Kumpli and the confluence of the Hagari. Levels recently taken at Nadiri indicate—though not conclusively—that no very large reservoir can be formed there, but there may be other possible sites lower down.

18th June 1898.

(Signed) W. HUGHES,
Chief Engineer for Irrigation.

ORDER—No. 556 I., dated 21st July 1898.

The following letter will be addressed to the Resident, Hyderabad.

Issue

As one or more reservoirs
will have to be constructed
sooner or later on the Tumbhura
if on full investigation it is
found feasible to do so, it
would be advisable to make the
necessary surveys soon. For
this the permission of H. H.
The Maharaja's Government is
~~needed~~ required.

The site just above the Valerup-
Korogal ~~Korogal~~ ancient well in all
probability prove to be the best
above Stospelt but the river
higher up will be examined
wherever it is possible that there
may be an outcrop of good
rock. If the project for irrigation
in Bellary District east of the
Dargi Hills is finally abandoned
good reservoir sites will be
sought for between Kumbli

and the confluence of the
 Hyain. Levels recently taken
 at Kadiri indicate - ^{Hyain} but
 not conclusively - that no
 very large reservoir can
 be formed there but there
 may be other possible sites
 lower down.

FOR ORDERS.

FOR ORDERS.

No 557 D 21.7.98
 No 199 D of 18-7-98

To The Resident
 Hyderabad

1. The Madras Government has
 under contemplation the
 construction of one or more
 reservoirs in the Tungabhadra.
 As any reservoir would
 necessarily extend over a
 portion of H.H. the Mirans
 territory I am directed to ask
 that the permission of the Hyain
 Government ^{Darbar} to have the
 necessary surveys made in the
 neighbourhood of Kadiri,
^{Koregal} ~~Koregal~~ or whenever else there
 may appear to be suitable sites.

may be obtained
 to enable this Govt. to
 make

Darbar?

A.H.
 13.7.98

2. Should investigation prove it
 feasible to irrigate land in
 Hyderabad territory and the
 Hyain Government be inclined
 to accept a certain supply of
 water as whole or part com-
 pensation for land which
 might be occupied by a reservoir
 it would be necessary to extend
 the surveys sufficiently to
 ascertain the area of land

Commanded

When the line for the dam
is determined the location
has been selected shafts will
have to be sunk along it to
ascertain the nature of the
subsoil. Such compensation
as the Engineer's Office may
settle will be paid for any
damage to land or crops.
done in sinking the shafts.

FOR ORDERS.

To be approved
by Mr. S. before
issue.

RCV

16/7/98

To The Chief Engineer for Drainage
into Copy of letter -
"Supp. Engineer 3rd Circle"
"Rev. Dept."

It para 2 of the letter
was omitted as it seems
the Rev. Dept. seems
necessary - for orders.

17/7/98

To O.D. for perusal of the
Chief Secy's remarks.

9th 4/30/98

The Chief Secretary has
pointed out to me that difficulties
might arise if an independent
State were allowed to have an
interest in an irrigation work.
As I know of no precedents for
doing this I think it will be
better with the second part
of my draft, leaving the question
of form of compensation to be
determined afterwards. Under
the circumstances it will not be
necessary to send the draft to
the Rev. Dept. W.H. 1/7

CS

Political can have no objec-
tion to the draft letter provided
that there are precedents in the
Irrigation Branch for making
offers of compensation, such as
those now proposed, to the Darbar
of a Native State. There are no
such precedents in the file.

It is more correct to
write of the "Darbar" of a
Native State than to use the
expression "Government"

Curb
25/6/98

I would suggest that the paper be
sent to the Rev. Dept. also for
counter initials. Many similar
cases relating to irrigation have
been dealt with in that Dept.
The land required has been
obtained not by giving a payment
in water but by compensation
for the assessment on it & by
buying out the holders interest.

12/7/98

Physical can have no effect
on the staff letter provided
that there are precedents in the
language branch for making
efforts of compensation, such as
that now proposed to the Board
of a State. There are no
such precedents in the field.
It is more correct to
speak of the "Board" of a
State than to use the
expression "Government".

I suppose that the fact
that the State has
consequently been
able to keep the
State with in the
the land of the
attention but for the
is not left to
of the Government
the State.

The State has
consequently been
able to keep the
State with in the
the land of the
attention but for the
is not left to
of the Government
the State.
