NOTES.

Reference to P. W. D. Code,
Chapter XV, section vi, para. 199.

- This form should be used by the Executive Engineer or the local Government in any of the following cases:-
 - When a grant, or an addition to an existing grant, is required for carrying on a sanctioned major work.
 - When a grant for a work is found to be in excess of requirements, and it is proposed to resign it, either wholly or in part.
 - When it is proposed to utilize the grant for one work upon some other.
- Either of the columns for "Proposed new grant" or for "Proposed reduction," or both, may be used as required.
- If it happens that the grant already allowed has been reduced, the entry in the column "Existing grant for current year" would of course be the amount less such reduction.
- In the case of Irrigation works, the entries in the column "Departmental and service head" should show distinctly whether the proposed re-appropriation is debitable to Capital or Revenue, and the entries in the column "Works" should be so arranged as to show the project to the Capital or Revenue account of which the charge is debitable, and the class of service to which the charge is debitable, thus:-

PROJECT.

- (1).-HEAD WORKS-
- (B). Land
- (K). Buildings

In cases of Productive public works, the fact of their being so should be noted against the entries.

5. It being of the utmost importance that early intimation of possible lapses, or of excesses, in outlay on works should be communicated to the Government, a close watch should be maintained on the progress of all works, and this form employed the moment the facts are sufficiently known.

6. Applications for re-appropriations which require the sanction of the Government of India should be submitted by the local Government in duplicate; applications by Executive Engineers should be submitted through the Superintending Engineers of their Circles.

Orders by the Government of _____

No. _____, dated the _____ 189

Secy. to Govt. of _____

P. W. Department.

Dated the _____ 189

(Signature) _____

EXPLANATION OF NECESSITY FOR RE-APPROPRIATION.

1. This is an incomplete work of last year, the amount is required to close the accounts finally.
2. The amount is urgently required for the record racks, which has been put in hand.
3. The Engineer has been asked to go on with the work at once as the Inspector General of Customs wants the same to be finished off at a very early date.
4. Against a grant of Rs 1000, a sum of Rs 1497 has already been spent. The amount now applied for is wanted for improving the wells at Ramandring which should be completed before the end of March 1898.
5. Required to settle up finally the Contractor's accounts & to close the accounts.
6. The work has been completed. For settling the accounts of the Contractor finally a sum of Rs 7000 will be required. The outlay on the work up to date has far exceeded the sanctioned estimate which will be fully explained in the Completion Report. A sum of Rs 5200, has now been proposed to be transferred for other works & for the balance a separate application is being sent.
7. The additional grants are required to meet excess outlays already incurred & also to meet expenditure that may be incurred before the close of the official year.
8. Amount cannot be spent during the year vide this Office No. 50854 dated 16th February 1898.
9. As the work was resumed about the beginning of Jan'y 98 the full allotment cannot be spent hence the surrender.
10. Work completed, saving not required.
11. Amount not required hence surrendered.
12. Amounts not required as there are no sufficient estimates.
