		Total ..	..	..	..	..	29,900	29,900			Total ..	..	..	..	..	..	29,900	5,059

Explanation of necessity for re-appropriation.

(a, b, c, d, e, f) These are all incomplete works of last year and they will have to be completed as soon as possible. Please see this office No. 28 C., dated 18th June 1898, for details as regards Sagileru project.
(g) As the work is almost completed, the officer in charge of Bellary division has been told to finally close the accounts as per comparative statement submitted by him, and submit a completion report showing all deviations with full explanation. The amount now applied for is required to pay land compensation and other incomplete works which will be completed during the current year.
(h) Revised estimate for Rs. 82,000 for improving Rampur channel has been submitted with this office No. 1275 I., dated 12th July 1898. The amount is urgently required to go on with the work.
(i) The amount is urgently required and has already been applied for separately (vide this office No. 991 I., dated 22nd June 1898). The estimate for the work has been sent to the Chief Engineer for Irrigation, Madras, for sanction by the Board of Revenue.
(j) There is no probability of going on with the Chepad project during the current year as the plans and estimates have not yet been ready. Even if commenced, a sum of Rs. 5,000 will do.

(Signed) W. L. C. BADDELEY, Lt.-Col., R.E.,
Superintending Engineer, III Circle.

22nd July 1898.

FURTHER PAPERS.

Reference to P. W. D. Code,
Vol. II, Chapter IV, para. 135 (h).

1. This form should be used by the Executive Engineer in any of following cases :—
 - (a).—When he requires a grant, or an addition to an existing grant, for carrying on a sanctioned major work.
 - (b).—When he is unable to utilize the grant at his disposal for any work, and wishes to resign it either wholly or in part.
 - (c).—When he wishes to utilize the grant for one work upon some other.
2. Either of the columns for "Proposed new grant" or for "Pro-
posed reduction," or both, may be used as required.
3. If it happens that the grant already allowed has been reduced,
entry in the column "Existing grant for current year" would of
course be the amount less such reduction.
4. In the case of Irrigation works, the entries in the column
"Departmental and service head" should show distinctly whether the
proposed re-appropriation is debitable to Capital or Revenue, and the
entries in the column "Works" should be so arranged as to show the
project to the Capital or Revenue account of which the charge is debiti-
ble, and the class of service to which the charge is debitable, thus :—

PROJECT.

(1).—HEAD WORKS—

(B). Land

(K). Buildings

In cases of Productive public works, the fact of their being so should be noted against the entries.

5. It being of the utmost importance that early intimation of possible lapses, or of excesses, in outlay on works should be communicated to the Government, a close watch should be maintained on the progress of all works by Executive Officers, and this form employed the moment the facts are sufficiently known.

6. Applications for re-appropriations which require the sanction of the Government of India should be submitted by the local Government in duplicate; applications by Executive Engineers should be submitted through the Superintending Engineers of their Circles.

EXPLANATION OF NECESSITY FOR RE-APPROPRIATION.

(a. b. c. d. e. f.) These are all incomplete works of last year and they will have to be completed as soon as possible. Please see this Office No. 28 dated 18-6-98 for details as regards Lingleru Project.

(g.) As the work is almost completed, the Officer in charge of Ballary Division has been told to finally close the accounts as per Comparative Statement Submitted by him and submit a Completion Report showing all deviations with full explanation. The amount now applied for is required to pay Land Compensation and other incomplete works which will be completed during the current year.

(H.) Revised Estimate for Rs. 32,960/- for improving Rampur Channel has been submitted with this Office No. 1275 I dated 12-7-98. The amount is urgently required to go on with the work.

(I.) The amount is urgently required and has already been applied for separately. Vide this Office No. 991 I dated 22-6-98. The Estimate for the work has been sent to the Chief Engineer for Irrigation, Madras for sanction by the Board of Revenue.

(J.) There is no probability of going on with the Chupad Project during the current year as the plans and Estimates have not yet been ready. Even if commenced a sum of Rs. 5,000/- will do.
