since December 1897 from which time the print account manufacturing is in progress are being charged to the estimate for

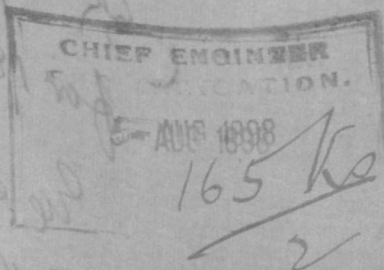

Print Accounts Manufacture sanctioned for Rs 14300, as provision for the up keep of the whole print establishment was originally made in the estimate.

III The expenditure Rs 197.15-3 above referred to may as well

be written back to the estimate of Print Account Manufacture since there is a profit of Rs 427 up to end of January 1898 in the manufacture, the outturn being Rs 4238 against expenditure Rs 3811

Copy of letter No 855 dated 13 July 1898 from E. A. Dampy Esquire Examiner of Public Works Accounts Madras & Coog. to the Executive Engineer Kistna Eastern Division.

With reference to your letter No 565 dated 2nd instant, I have the honor to request that, as it would appear that the Print Manufacturing Account cannot bear the charges incurred on account of the salary of the Print Lindsals. (as was proposed by the Executive Engineer Kistna Northern Division in his letter No 98C dated 11th March 1898) the facts of the case may be reported to Superintending Engineer II Circle in view to the approval of Government being obtained to the outlay of Rs 197-15-3 being allowed to stand at debit of the three estimates for annual maintenance of prints for 1897-98 as detailed by the Executive Engineer Kistna Northern Division in his letter referred to above.

since December 1897.

2. I request that this matter may be treated as urgent, and the necessary sanction applied for, at an early date, as in G.O. No 1061 dated 29 November 1897. It was stated that no loss has been made out for keeping on the point. Kind also referred to.
