LETTER—from

J. C. LARMINIE, ESQ.,
Ag. Joint Secretary to the Government of Madras,
Public Works Department,
Irrigation Branch,

To

THE SECRETARY TO THE GOVERNMENT OF INDIA,
MARINE DEPARTMENT.

SIR,

With reference to my letter, No. 764 I., dated 19th August 1897, requesting that the construction during 1897–98 of the steam launch for the Kistna delta system may be postponed, I am directed to inform you that this Government now considers that a new launch is not necessary, as the two stern wheelers lately constructed will, with the existing launch, meet all requirements.

2. I am to request that the Deputy Director of Royal Indian Marine, Calcutta, may be informed accordingly.

I have the honour to be,
Sir,
Your most obedient servant,

(Signed) J. C. LARMINIE,
Ag. Joint Secy. to Government,
Irrigation Branch.

Ordered that the Government of India be informed that a new — is not necessary.

No. 663 I., 3RD SEPTEMBER 1898.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.

READ—the following papers:—

From J. HANNAN, Esq., Superintending Engineer, II Circle, to the Chief Engineer for Irrigation, dated 4th May 1898, No. 1332 K.E.

With reference to G.O., No. 206 I., dated 12th March 1898, I have the honour to report that I do not consider this steam launch (twin screw) is necessary and that the two stern wheelers lately constructed will, with the *Alexandra* launch, meet all requirements.

No. 220 I.

Note by the Chief Engineer for Irrigation.

In G.O., No. 506 I., dated 28th May 1897, an estimate was sanctioned for a steam launch required chiefly for inspection work on the Kistna river under "42." Revenue account of the Kistna delta system.

In G.O., No. 763 I., dated 19th August 1897, owing to financial pressure, the construction of the launch was postponed.

In its letter communicated with G.O., No. 28 I., dated 10th January 1898, the Government of India expressed its opinion that the cost of the launch is properly chargeable to the Capital account of the system, and that if the launch is found necessary hereafter, the estimate for it should be sanctioned under that head. The sanction accorded to the launch was thereupon cancelled.

The Deputy Director of Royal Indian Marine having requested to be favoured with information as to whether the launch is to be constructed in view to such work as may have to be done in the dockyard during 1898–99 being arranged for, the Superintending Engineer, II Circle, was, in G.O., No. 206 I., dated 12th March 1898, directed to report whether it was necessary that the construction of the launch should be put in hand during the current year, and if so, to submit an estimate for sanction.

The Superintending Engineer now reports that he does not consider the launch necessary and that the two stern wheelers lately constructed will, with the *Alexandra*, meet all requirements. The Government of India in the Marine Department may be informed accordingly.

12th May 1898.

(Signed) J. C. LARMINIE,
Ag. Chief Engineer for Irrigation.

ORDER—No. 663 I., dated 3rd September 1898.

In the circumstances reported, the Government of India in the Marine Department will be informed that a new launch for the Kistna delta system is not required.

2. The following letter will be sent.
