Application for modification of existing grants under Irrigation for the year 1898–99.

[Statement

APPLICATION for Modification of Existing Grants under Irrigation for the year 1898–99, V Circle.

Item No.	Division.	Works.	Amount of estimate.	Existing grant.	Modification applied for.		Modification proposed.		Revised grant.	Remarks.
					Decrease.	Increase.	Decrease.	Increase.		
			Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
		43. MINOR WORKS AND NAVIGATION. WORKS FOR WHICH CAPITAL AND REVENUE ACCOUNTS ARE KEPT. <i>Capital.</i>								
1	South Arcot	Constructing an apron in front of Shattatope anicut.	* 71,800	30,000	..	18,477	..	18,477	48,477	The revised estimate of Rs. 71,800 was submitted for sanction on 31st July 1898. Outlay incurred to end of July 1898 is Rs. 33,391 against the grant of Rs. 30,000. The additional grant now applied for is absolutely required for completion of the work during the current year.
2	Do.	Pelandorai Anicut System. Lowering the Pelandorai anicut and fitting it with 6-feet girder shutters.	* 1,03,000	5,000	..	23,819	..	23,819	28,819	The revised estimate received from the Executive Engineer has been forwarded to the General Superintendent, Public Works Workshops, for verification of certain items therein provided for and has not yet been returned. The expenditure to end of July 1898 amounts to Rs. 13,155. Additional grant applied for to complete the work during current official year is absolutely necessary.
3	Do.	<i>Revenue.</i> Vridhachalam Anicut System. Extensions and improvements	L.S.G.	3,533	2,000	..	2,000	..	1,533	The surrender is due to some works originally intended to be put on hand having since been found not feasible. Hence the proposed surrender.
4	Chingleput	Palar Anicut System. Maintenance and repairs Establishment	L.S.G.	9,228	5,000 1,150	..	5,000 1,150	..	4,228	Owing to the scarcity that threatened parts of the Chingleput division in the early part of the year, several irrigation ordinary works were put in hand at the request of the Collector that otherwise would not have been commenced this year. The result is that the liabilities are found nearly to approach the grant and there is no reserve for monsoon damages. The estimate for repairs of tanks in the Palar anicut system are not yet ready, and the existing grant is therefore not likely to be required for outlay during the year. Hence the proposed modification.
5	Do.	<i>IRRIGATION—ORDINARY. Accounts not kept.</i> Irrigation, Ordinary repairs Establishment Tools and plant	L.S.G.	35,000	..	4,940 1,136 74	..	4,940 1,136 74	39,940	The season has been very favourable for work; much turning that it has not been possible to do during the last two years on account of draught, should be done this year. Liabilities nearly cover the available balance of grant.
6	Do.	Irrigation—Ordinary repairs	L.S.G.	35,000	..	6,150	..	6,150	44,940	

* Revised estimate.

† Required in addition to the Rs. 4,940 proposed to be transferred from the grant under Maintenance and repairs, Palar Anicut system (*vide* preceding item).
