No. 144 M.

Note - The application, originally included channel iron for the Grand Avenue also, but this is probably on its way out from England also. The statement as now amended, includes iron for the lower avenue only, & as it is urgently required, & the cost small, local purchase is recommended. The Ch. E. for Muz supports the application.

Please say whether
you recommend the local
purchase of the channel
iron - the last bi-monthly
return of stores shows that
steel channels for the Grand
amirant will be shipped in
February, & that channel iron
for the upper Alcoron amirant
was despatched by the S.S.
Mombasa, which sailed
from England on 25th Dec 97.
Nothing is said about the
lower Alcoron amirant -
please see also G. 40

I recommend the local purchase of
the iron required for the experimental Shuttles & the purchase of
at the Lower Amount only - Shipment of iron for
the Grand Amount work has been promised
in January & Feb^r and local purchase would
save scarcely any time nor is it very necessary
to save time as masonry work has not I believe been
begun yet - 15/2/98 LWH
