From the Superintendent Engineer II Circle, N^o 1093 N. L.
dated 6th October 1898.

No 273 Ed. 22-10-98
Note by the Chief Engineer
for Irrigation.

The accompanying estimate of Rs. 900 submitted by the Supg: Engineer II Circle provided for damareating and lockspitting the distributaries of the Palitipally project in the Kallare district, which is being investigated with the view of adding some large works to the famine programme. It is reported that the channels have been lockspitted as they pass through Zamindari limits, of which there is no

no map available. The estimate is recommended for sanction.

2. The Superintending Engineer has furnished no description of the project, and nothing is as yet known about it in this office.

Order thereon No 838 D 28.10.98.

The following estimate is sanctioned:—

Irrigation

43. Minor Works & Navigation

Minor works for which neither Capital nor Revenue Accounts are kept, P. W. D., Mallare Division, Original works.

Demarcating and Lacksitting the distributaries of the Palitipally project.

Estimate Rs. 900.

2. This sanction is registered as No. 89.I of 1898-99.

3.

3. The attention of the Superintending Engineer II Circle is called to the remarks of the Chief Engineer for Irrigation in para 2 of the foregoing note.

FURTHER PAPERS.

Copy of letter from L. L. Wickham Esquire, Executive
Engineer, Nelson Division to the Superintendent
Engineer II circle dated 30th September 98 N^o 30.

With reference to your 10987
N.L. of 6th September 1898, I have the honor to
inform you that the project is feasible and
one of those selected as a famine one.

2. The channel has been lockpitted as it passes through zamindari waste land of which there is no map.

13. If it had not have been lockpitted,
it would be most difficult to find again
and a considerable portion of time & subordinate
of this and the Revenue Department would
have been taken up in making compensation
statement if it had not have been lockpitted
at once.

4. As the channel is in Zamindary land it will be necessary to make arrangements with the Zamindar to give over the land at once when required for famine.

5. I therefore request that you will be good enough to sanction the estimate which was unavoidable.

6. The length of the channel is 15 miles long and the Project will irrigate 10000 acres. The cost of the Project is at present unknown but will probably be fairly remunerative.

No. 10934 d 27.6.10-78

Encls: 4.

Forwarded to the Chief Engineer for Irrigation for favor of sanction of Government being obtained to the estimate amounting to Rs 900 for demarcating and locksplitting the distributaries of the Paletipally project Nellore District.

McKen

offg. Superintending Engineer
Nellore
