Dated 27th Feb 1898

From the Sups. Engineer IV Circle

NOTE BY TECHNICAL SECTION.

Name of work. Re-metalling portions
of Maisur Gudalur Kattkur
Shat Road. Nilgiris
Est Rs 10,000

This work has been approved
by Govt. in its sanction
of the District Board Budget
for 1898-99.

This Road is of great im-
portance in the district
to the Coonoor Shat Road.
Its traffic is quite as heavy
and in addition, it is
subjected to two monsoons
that prevail through 7 or
8 months of the year with
hardly any intermission.

The natural soil of the
locality is very bad, being
a porous loam which
absorbs a great deal of
moisture. The preservation

of a metalled surface
is therefore most difficult
& frequent renewal of the

of the metal necessary, for
which the maintenance
allotment is insufficient
and must be supplemented
by special grants.

The present estimate provides
for re-metalling 3 miles of
road out of a total length
of 18 miles which stands
in urgent need of attention.

Notes. The rates are fair.

The estimate has been con-
sidered by the President
District Board and
approved in District Board's
proceedings dated 15th Feb/98.

S. J. W.
16.3.98.

W.

It is stated in the specification that
the metal will be blinder with a
small quantity of the best soil
procureable at the place, and
in the report that the natural
soil of the locality is exceedingly
bad: therefore it seems likely
that the metal will be blinder
with soil that may be exceedingly
bad - and whether it is worth
to blinder metal with any soil
inferior to gravel is a matter for
consideration.

COMP
18/3/98.

B19398

Some of the soil here
is not bad. & is
certainly better than
anything I have
seen before.
