In fixing the scale of Temporary Upper Subordinate Establishment for the next official year, it seems necessary to provide for 11 men, as shown below, in addition to the number sanctioned for the current official year.

The following is the sanctioned[(a)] scale for the current official year:—

Supervisors on Rs:	200	3
— do —	150	9
— do —	100	14
Overseers on Rs:	80	32

as amended by

(2) G.O. 1943 W dd 17.7.97, flagged 'E'

Of the requirements provided for in the above scale, the following have ceased to exist:—

— do — Negapatam Dn	1
For employment under the Sanitary Engineer in preparing type designs for sanitary works	1

The following additional demands have, however, arisen:—

		T.L.S	
1	Vizagapatam Waterworks —	1	(One permanent overseer is now employed under Mr Brown, the Officer in charge of the works)
2	Investigation of Irrigation Projects in the Nellore Dt. —	1	(One permanent Sub Engr. and 2 temporary overseers are now employed under Mr W.S.Shey, the Officer in charge. The 2 temporary men however may not ~~[illegible]~~ be required in 1898-99)
3	Execution of tank works in Nellore —	1	
4	Chepand project, Cuddapah Dt. —	1	(G.O. 3384W d/ 3.12.97, flagged 'P' – In place of one of the 2 overseers sanctioned, a Subovereer has been appointed by the S.E.)
5	Preparation of estimates for repairs to private tanks affecting railways in the Cuddapah Dt. —	3	(One overseer on Rs: 100 and two on Rs: 80 — G.O. 641W d/ 10.3.98) now in press
6	Surveying and levelling lands in connection with the extension of irrigation by the Kurnool-Cuddapah Canal —	1	? (G.O. 3199W d/ 16.11.97, flagged 'Q')

11	Preparation of a Memorandum of irrigation rights in the Tanjore Delta —	1 ?	(~~One~~ A permanent Sub Engineer has been deputed to the work in conjunction with a Revenue Officer)
	Total —	*15	

* Deducting the 4 previously mentioned, 11 extra are required.

It will thus be seen that ~~the~~ to meet the above demands, the existing scale of temporary Upper Subordinates must be raised ~~by~~ from 94 to 105 men if it be decided to maintain, for the reasons explained in the Note to His Excellency d/ 1st March 1897 attached to G.O. 617W d/ 4th March 1897, & the provision made in that G.O. under "Reserve" to cover absentees on the permanent list.

For favour of remarks in regard to irrigation requirements.

C.W.S.
12.3.98.

I think works referred to in items 2, 3 4 & 11 are likely to continue throughout the year and to require special men on them. I should say No 5 could probably be done by the ordinary division establishments – I know nothing of No 4. I don't think any extra establishment beyond that included in this list likely to be required next year. The irrigation grants having been reduced possibly some of the S.Es could spare men for special work. I notice that the ~~list~~ Distribution Return shows some men still on Famine duty in Vizag.m & some other Dist.s

L.A.O.

In his remarks d/ 14.3.98 on the accompanying note, I states that he knows "nothing of No. 4" He apparently refers to No. 6, having already expressed his opinion with regard to No. 4. As regards No. 6, viz "Surveying and levelling lands in connection with the extension of irrigation by the Kurnool-Cuddapah Canal." I's attention ×× may be invited to G.O. 3199 W. d/ 16. Nov. 1897, in which he recommended the employment of extra estab.

I also says that No. 5 ("Preparing estimates for repairs to private tanks affecting railways in the Cuddapah Dt.") "could probably be done by the ordinary + division "establishments". Before this point can be decided, a reference to the correspondence on the subject seems necessary. If so, A.C. may be asked to expedite

×× Flagged 'Q'

+ I himself recommended the employment of addl. upper subordinate estab. for this work. One temp. upper subordinate on Rs 100, & 2 on Rs 50 have been sanctioned - the papers are now in the Press. C.

16.3.98

Expedite the printing of G.O. No. 641W dated 10th March 1898, now in the press.

With reference to J's concluding remark, this submitted that the distribution return referred to is an old one, and that a new one is under preparation and will shortly issue.

N
15.3.98

P.S. If considered desirable, J's opinion may also be taken as to whether the provision made in G.O. No. 617W d/ 4th March 1897 for 2 upper subordinates for the Colair Lake Project, should be maintained during the next official year. Owing to the withdrawal of upper subordinates for famine relief works, investigations in connection with that project had to be suspended, and it is not known to this office whether they have been resumed.
