1. Proposition
Statement.

In connection with G.O. No.
47 W, dated 10th January 1898 in which
it is ordered that I am to carry
out the improvements to the Ooty
water works, I have the honor to
state that I shall require a lower
subordinate to lay out work, and
superintend the construction of
the various works.

2. The estimates amount to Rs 35,700, and the works are somewhat in the scattered. The laying of pipes and grades will require considerable time and attention and all the work will have to be thoroughly superintended or mistakes and failures will occur.

3. Supervisor Subramania Aiyar

will be put in direct charge, but he will not be able to be on the spot except occasionally, as with the Lake Sewer, the new Sewer from the Agnasharam to Charing Cross, and the bazaar drainage, he will have quite as much as he can do in the way of personal supervision.

4. Good Maistries are unobtainable up here, and indifferent ones are worse than useless, and all work done is set out and supervised by myself and subordinates.

5. The estimates only allow Rs 360 for petty supervision, or one percent on the total amount, which is insufficient to bear the cost of a subordinate, in addition to Head Coolies &c.

6. I therefore request sanction to appoint a Suboverseer on Rs 60 with an allowance of Rs 15 per mensem for 7 months.

I do not propose to pay 60 at present but according to qualification.

7. I have a man ready on the spot who will suit, and will appoint him in anticipation of approval when I started the work.

8. The usual form is enclosed.

Proposition
Statement

Copy submitted to the Chief Engineer Public Works Department with a request that he will be good enough to obtain the sanction of Government to the entertainment of a suboverseer on Rs 60 per mensem.

2. Mr. Somers Eve, reports in his no. 817 dated 11th March 1898 that the sanction accorded in his G.O. no. 2746 W dated 2nd October 1897 for a Surveyor expired on the 21st February 1898, and that the Surveyor has been appointed as suboverseer from that date as the Executive Engineer

Engineer could not possibly do
without him
