<u>Note.</u> The Executive Madras Divisionary has sanctioned to the entilement of 2 peons on Rs 9 each from 15 January to 28 February 1898 and of 1 clerk on Rs 30 from 1st to 28 February 1898. The Chief Engineer for Irrigation while admitting the necessity for the proposed establishment remarked that the men could be provided from the existing sanctioned scale. This remark was remitted to the Suptg. Engineer for report who replies that the men referred to by the S.E. for Irrigation have not been entertained and that the establishment required ^{therefore} cannot be provided from the existing scale. One peon appears to have been engaged from the 21st and the other from the 24th January 1898. The clerk has not yet been entertained. It is therefore proposed to sanction the employment of the two peons till 28 February 1898. <u>May</u> atmt. for W

Forwarded - The Asst. Engr. in charge of the
Peon's Head Office took into repair a clock and two
peons until end of May or perhaps a fortnight later
but I am not satisfied that this establishment cannot
be wholly or partly provided under existing sanctions. For
example the Secy's item in the list is for a peon to
work under a subordinate whom it was intended
to place in charge of the Kodakumal Observatory. I
do not know that any special charge subordinate
has been put in special charge there and if there
should be one in future I think the establishment
will have to be sanctioned in the Localities Division.
Moreover there are six Secy's clerks at Thekadu who will
have almost nothing to do after end of Feb^{ry} until the Secy's
work is completed and two of them might be put under the
Asst. Engr.
