Telegraphic Address:
INDIAMEN, LONDON.

Sir,

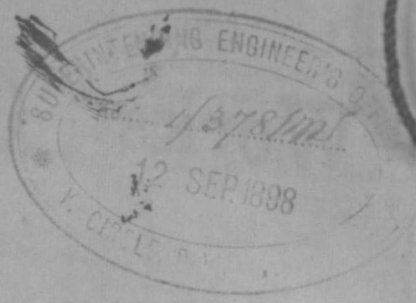

Referring to your Annual Public Works Indent No. 1 dated 9 March 1898, I have the honour to enquire whether the description of item 832, "Gas taps and dies, $\frac{1}{8}$ to $\frac{3}{8}$ increasing, sets 3,"—is correct. It is observed that the estimate, £33, is very high, and is the same sum as that quoted for the next item, 833, which comprises a larger number of taps and dies (including $\frac{1}{8}$ to $\frac{3}{8}$).

No steps will be taken for the supply of item No. 832 pending the receipt of your reply to this letter.

I have the honour to be, Sir,

Your obedient servant,
Grant
Director General of Stores.
