READ—the following paper:—

From Commander W. AVES, R.I.M., Acting Presidency Port Officer, Madras, to the Secretary to Government, Marine Department (through the Secretary to Government, Public Works Department), dated 5th September 1898, No. 206/304 G.

In G.O., No. 3571 W., dated 20th December 1897 (Marine No. 24 of 17th January 1898) an estimate of Rs. (7,360) seven thousand three hundred and sixty was sanctioned for repairs to the pier at Calicut. The Superintending Engineer has now forwarded the accompanying revised estimate (with plan), amounting to Rupees (15,880) fifteen thousand eight hundred and eighty, for more extensive repairs, which I forward duly countersigned, and beg that sanction may be accorded to the excess amount which can be met from the Western Group Port funds. The cause of excess is explained in the report accompanying the estimate. The Superintending Engineer observes that if repairs in accordance with the present revised estimate are carried out there will practically be a new pier, and that the question of constructing one on another site can be considered at some future time.

ORDER—No. 2623 W., dated 11th October 1898.

The revised estimate, amounting to Rs. 15,880, for repairs to the pier at Calicut, is sanctioned, in supersession of the estimate of Rs. 7,360, sanctioned in G.O., No. 3571 W., dated 20th December 1897.

2. There is a provision of Rs. 2,360 in the current year's budget. The Superintending Engineer will report what further allotment is necessary during the current year.

3. This sanction has been registered as Excluded Local No. 24 W. of 1898-99, and classified as Miscellaneous Public Improvements—Repairs.

The Presidency Port Officer - Madras with his letter No. 206/304 G of 5th September 1898 forwards for sanction of Government duly countersigned the revised estimate of Rs 15880 received from the Supdg Engineer IV Circle for repairs to Calicut Pier prepared with reference to Memorandum No. 22-74 C 26-4-98

The Original estimate of Rs 7360 sanctioned in G.O. No. 3571 W 20-12-97 provided for putting the structure into a condition of repair sufficient to ensure its use and safety for a certain period until the construction of a new pier, but a closer examination than was formerly possible [illegible]

that the partial repairs would be useless and to make the ~~same~~ thier stand for years, the renewal of the whole woodwork would be necessary.-

The Chief Engineer after inspection having approved of the above line ordered ~~for~~ a revised estimate. ~~which~~ Thee provides for dismantling the woodwork of the pier platforms and ~~substituting~~ replacing with new wood ~~for~~ portions ~~where~~ found necessary, substituting iron tie rods to piles of some of the bays driving some new wooden piles, tarring the pier and relaying iron rails for train supplying logs.-

The revised estimate has received the approval of the Chief Engineer after personal inspection.- W.H.

The Supt'g Engineer in the last para of his report says that after the completion of the repairs now provided for there will be practically a new pier and the question of building one in another position must be postponed sine die.

a decided advantage. W.H.

The rates* are in many cases as per sanctioned estimate and those for other new items seem fair. The estimate has been checked and submitted for sanction in the Public Works Departt after approval in the Marine Department.

Sir,

In G. O. No 3571, W, dated 20th December 1897 (Marine No 24 of 17th January 1898) an estimate of Rupees (7,360) seven thousand three hundred and sixty was sanctioned for repairs to the pier at Calicut. The Superintending Engineer has now forwarded the accompanying revised estimate (with plan) amounting to Rupees (15,880) fifteen thousand eight hundred and eighty for more extensive

extensive repairs, which I forward
duly countersigned, and beg
that sanction may be accorded
to the excess amount which can
be met from the Western Group
Port Funds. The cause of excess
is explained in the Report ac-
companying the estimate. The
Superintending Engineer observes
that if repairs in accordance
with the present revised estimate
are carried out there will
practically be a new Pier,
and that the question of con-
structing one on another site
can be considered at some
future time.

I have the honour to be,
