Your letter No. S. Do. 802 dated 9th Sept. 1898, I am directed to state that any description of fencing with droppers & wedges is considered objectionable, as the droppers bend and break in a very short time (and the wedges drop out and are lost.) As, however, one mile of fencing 4 feet high has already been ordered, it is probably too late to countermand it, & if so, the supply may be made. As regards item 628, fencing 3'6" high, I am to request that the supply may be deferred, and that a specification, & an estimate of the cost of one mile of Morton's fencing may be furnished, ~~& this office~~.

We add 2 inf. copies & Plan

9th September 1898.

Sir,

Referring to item 627 in your Annual Indent No. 1 dated 9th March 1898, for Fencing, I have the honour to inform you that one mile of fencing 4 ft. high with Bain's patent galvanized tubular standards and galvanized patent steel droppers, will be supplied at a cost of £101.4.10.

2. As regards item 628, for fencing 3' 6" high, alternative tenders have been obtained from Messrs. Bain & Co. at £91. 16. 10 and £53. 6. 2. The price of the former considerably exceeds the indent estimate, it is doubtful whether the quality of the latter fenci would be sufficiently good. In these circumstances c of their two specifications are forwarded herewith your consideration. No steps will be taken for the suppl

W 6

With reference to your instructions in the accompanying slip, it is submitted that the Director General of Stores in para 2 of his letter states that fencing 3'-6" high for which he sends two specifications Nos: 244 will not be supplied until he receives a reply from us. There is therefore, it is submitted, no need to wire to the Director General to stop the supply of this fencing. We can inform him by letter not to supply this fencing and ask him for specifications and cost of Morton's fencing

In para 1 of his letter, the D. G. states that 1 mile of fencing 4' high will be supplied at a cost of £ 101-4-10. It is thus apparent that he has already arranged for the supply. Orders are therefore requested as to whether the D. G. should be informed by telegram not to supply this fencing if possible
