PLAQUE

PROCEEDINGS OF THE MADRAS GOVERNMENT.

From the Surgeon-General, Madras, to the Chief Secretary to Govt,
Public Department, No. 386 dated 4th October 1898:-

I have the honor to state that the approach of plague and the arrangements made to combat it, render it very necessary that there should be ~~a means~~ a means of speedy communication between this office, the Plague Commissioner's Office, the Medical Store Depot, the General Hospital, the Plague Hospitals and the office of the President, Municipal Commission. I therefore request that Govt. will be pleased to sanction this office being connected with the above offices and institutions by telephone. The project is so conducive to efficient and expeditious administration that I am sure Govt. will not be influenced by financial considerations to veto it, as otherwise delays detrimental to the interests of the patients and institutions alike may possibly occur.

Also endorsement from the Plague Commissioner, No. 148 dated 11th October 1898:-

Submitted to Govt. If plague breaks out it will certainly be most advisable to have the connection the Surgeon-General suggests.

The Govt. Office where the Plague Commissioner has his office should also, it is submitted, be put in ^{communication} ~~connection~~ with the office of the President, Madras Municipality, and the office of the Sanitary Commissioner.

Order No.1389-P Misc. dated 28th October 1898.

The Surgeon-General's proposals are approved and the Public Works Department will be requested to arrange as soon as possible to connect his office with the several places mentioned by him by telephone as a temporary measure.
