READ—the following paper :—

From Major W. L. C. BADDELEY, R.E., Superintending Engineer, II Circle,
to the Chief Engineer, Public Works Department, dated 6th July 1895,
No. 828 K.S.

In reference to G.O., Mis. No. 1786, Revenue, dated 4th May 1895, communicated
with G.O., No. 1211 W., dated 20th May 1895, I have the honour to suggest that
the order might be modified so as to provide for the Superintending Engineer being
informed of any proposals for the sale of buildings and sites.

2. As the order stands it is open to an Executive Engineer, who is the officer in
charge of buildings, to arrange with the Collector for the disposal of a site with the result
that a Government order may issue in the Revenue Department without the Superin-
tending Engineer having been able to record his opinion on the subject.

ORDER—dated 15th July 1895, No. 1743 W., Public Works.

With reference to G.O., No. 1211 W., dated 20th May 1895, Executive Engi-
neers will invariably submit their proposals to the Collector through the Superintend-
ing Engineer of the Circle.

Sale of Buildings

Directing Executive Engineers, with reference to G.O., No. 1211 W., dated 20th May 1895, prescribing the procedure for the — in charge of the Public Works Department, with their sites or with attached lands to invariably submit their proposals to the Collector through the Superintending Engineer of the Circle.

READ—the following paper :—

G.O., dated 4th May 1895, Mis. No. 1786, Revenue.

Read—the following office-note from the Secretary to Government, Public Works Department, to the Secretary to Government, Revenue Department, dated 17th April 1895, No. 8 D.

Under existing procedure proposals are frequently made by Public Works officers to the Public Works Department of the Secretariat for the sale of abandoned buildings in charge of this department. The sanction given sometimes includes the sale of the land attached to the buildings, and when this is the case, the sale is, under paragraph 2 of G.O., No. 1400 W., dated 27th May 1889, carried out by the Revenue authorities. This procedure seems to require amendment. The Public Works officers who initiate the proposals for the sale of building sites are not only ignorant of the revenue details essential to the conveyance of a valid title but are not even in a position to judge of the expediency or otherwise of the alienation of the land at all. It would probably be better, therefore, if all proposals for the sale of the sites of buildings were submitted by the Collector direct to the Revenue Department; when the question is simply one for the sale of the materials of which the buildings are composed, the existing practice under which Superintending Engineers apply to the Public Works Department of the Secretariat might be continued.

2. If you agree, orders on the subject might issue in the Revenue Department.

Order—dated 4th May 1895, Mis. No. 1786, Revenue.

The procedure suggested in the above office-note will be adopted in future whenever it is proposed to sell buildings in charge of the Public Works Department with the sites on which they stand or with the attached lands. In such cases the Public Works officer in charge of the building should place himself in communication with the Collector of the district who will take the orders of Government in the Revenue Department.
