From

From
J. C. Larmine Esq. M. I. C. E.
Suptg. Engineer, III Circle,
Bellary.

To

The Chief Engineer,
P. W. Department,
Madras.

Sir,

Sir,

In his objectionable Item Statements for the past several months, the Examiner P.W. Accounts has reported as objectionable several items under "33 Famine Relief" for "want of estimate" and "excess over estimate." All the famine works having been closed, it seems doubtful whether original or revised estimate is necessary at this stage. I have, therefore, the honour to request that you will be good enough to authorize the Examiner of P.W. Accounts to omit such items from his objectionable statements in future.

I do not mention here that the labour of

2. I need not mention here that the labour of preparing estimates for all these items would be great and will certainly interfere, at this time of the year, with other more important works of the Division.

I have the honor to be,
Sir,
Your most obedient servant,

Sept. Engineer, III Circle.

Chief Engineer's Office, III. Div.

Department

Chief Engineer, III. Div.

Chief Engineer

In his objectionable statement for the past several months, the Engineer has reported as objectionable several items under "33" which are "not of estimate" and are in excess of estimate. All the former with having been classed as "not of estimate" and "not of estimate" is necessary as the Engineer has, therefore, the same to report that you will be required to be satisfied. The Engineer of P. W. Accounts to visit each item for objectionable statements in future.

I need not mention here that the balance of preparing estimates for all the items would be great and will certainly interfere at the time of the year with other more important work of the Division.

*Very respectfully,
J. H. ...*

OFFICE NOTE No. 452 B/A

W.

Your Office Note No.67I C dated
5th.February 1898

If the Government see fit in the special circumstances of the case to authorize me to accept the outlay on the works referred to in the absence of sanctioned Estimates, I will omit the items from the next Provincial Objectionable Items Statement.

2. The preparation at this late date of original or revised estimates for Famine works would obviously be purposeless (P.W.Code I.VII.34), but the irregularity of works having been commenced and completed without any estimates whatever seems to call for some special remarks with reference to para 5 of the same Chapter and Volume quoted above.
