Temporary Establishment

The employment, during 1899-1900, of the — required for the III Circle, as detailed in the statement submitted by the Superintending Engineer, sanctioned, with remarks.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—the following papers:—

Extract from letter from the Executive Engineer, Cuddapah Division, to the Superintending Engineer, III Circle, dated 4th February 1899, No. 4228.

With reference to Chief Engineer's memo. No. 5613 C., dated 13th December 1898, communicated with your endorsement No. 155, dated 9th January 1899, I have the honour to forward, herewith, an application for the continued employment of the temporary establishment in this division for the official year 1899–1900 and to offer the following remarks which will justify the continued employment of the establishment included in the statement.

Chepad project sub-division establishment.—As the revised estimate of the project is almost ready for submission for sanction, and as it is almost certain that the project works will be resumed during the next official year, the continued employment of the establishment (excepting the draftsman, whose services will be required only for six months) is necessary. A grant of Rs. 30,000 has been applied for the next year for the project.

Establishment for investigating tanks affecting railways.—In G.O., No. 641 W., dated 10th March 1898, the establishment entered in the application now sent was sanctioned for one year for investigating only 99 tanks out of the 170 that were stated in the above Government Order to be in need of repairs. According to your recent orders it is necessary to investigate all the tanks, whether Government or private, which affect the railway line. This method of investigation increases the number of tanks to be investigated to a very large extent, the approximate number amounting to 500, thus necessitating the continued employment of the establishment. The Supervisor in charge reports that he will take about three years to complete the work. Considering the number of the tanks I do not think that the period fixed by the Supervisor is too much. At all events the continued employment of the party during the next official year at least is necessary, and hence it has been included in the application. I shall submit a further report later on regarding the work already done by the party.

* In the case of appointments on progressive pay, the "average" should be calculated according to the rules in the Civil Service Regulations.

Remarks.—(*a*) The pay of the draftsman is increased by Rs. 5 as the Executive Engineer reports that he is very intelligent and hardworking and is of great assistance to him.

(*b*) The present sanction expires by the middle of March 1899 and the Executive Engineer proposes to put him on investigation of Hagaribomanahally and other projects for forming large reservoirs and therefore applies for the surveyor and his lascar's retention for one year.

(*c*) As the arrears in the Accounts section will not be closed by first week of March, when the present sanction will expire, the Executive Engineer proposes to keep him on till end of June 1899, by which time he hopes to clear off all the arrears.

(*d*) This extra staff is required owing to increase of work in the division on account of Tank Restoration Scheme estimates. Full explanation called for in the Chief Engineer's memorandum No. 737-C., dated 2nd February 1899, will be shortly submitted.

(*e*) As the works in the sub-division offices are increasing it is found necessary to increase the strength of the sub-divisions by one clerk each on Rs. 20.

Copy of extract of letter No. 4228, dated 4th February 1899, from the Executive Engineer, Cuddapah division, is enclosed which explains the necessity for the continued employment of the establishment for Chepad sub-division and railway affecting tanks party.

Certified that the entries under the head "Present scale" have been duly verified by me.

Madras,
17th February 1899.

(Signed) H. RAINIER,
Offg. Examiner, P.W. Accounts.

(Signed) W. L. C. BADDELEY, Lt.-Col., R.E.,
Supdg. Engineer, III Circle.

No. 689 W.

Submitted to the Chief Engineer, Public Works Department, for favour of sanction through the Chief Engineer for Irrigation, Madras.

17th February 1899.
(Signed) W. L. C. BADDELEY, Lt.-Col., R.E.,
Superintending Engineer, III Circle.

From the Superintending Engineer, III Circle, dated 28th February 1899, No. 849 W.

No. 10 E.W.

Forwarded to the Acting Chief Engineer, Public Works Department.

2. The establishment included in the second item for Bellary division, the first for Cuddapah, and the irrigation superintendents forming part of the first item for Kurnool are necessary. I am not satisfied that the reasons given by the Superintending Engineer justify the maintenance of the special establishment asked for for the Chepad channel. This channel is but an ordinary work and, as the revised estimate is nearly ready, I should have thought the clerk and draughtsman could be dispensed with almost at once. The grant for next year is Rs. 36,900, and if the work is not wholly difficient from the sanctioned design, there will be continued employment for the sub-overseer. When the survey work is completed the peons can scarcely be required.

3. I can offer no opinion regarding the rest of the establishment asked for.

7th March 1899.
(Signed) W. HUGHES,
Chief Engineer for irrigation.

Office-note from the Examiner, Public Works Accounts, dated 21st March 1899, No. 922 B./E.

Returned checked with the following remarks.

2. The temporary establishment sanctioned from time to time during the year was found to have been omitted, but this omission has been supplied by this office. Please see corrections made in the statement.

ORDER—No. 1027 W., dated 10th April 1899.

The employment, during 1899–1900, of the temporary establishment required for the III Circle, as detailed in the proposition statement submitted by the Superintending Engineer with his letter read above, is sanctioned, subject to the following remarks:—

Bellary Division.

(*a*) The increase of Rs. 5 proposed for the temporary draftsman in the Divisional office has been disallowed, as the pay of the appointment was raised from Rs. 20 to Rs. 30 only in 1898–99.

(*b*) The retention of the temporary accounts clerk for four months is sanctioned on the understanding that the arrears of accounts will be fully worked out before the expiry of that period and that further extension will not be applied for.

(*c*) In order to cope with the increase of work in the Divisional office, caused by the execution of tank restoration scheme estimates, the Superintending Engineer applies for two additional clerks on Rs. 20 each and one tracer on Rs. 15 per mensem. This proposal was separately considered in G.O., No. 977 W., dated 6th April 1899, wherein it was decided that one clerk on Rs. 20 per mensem should for the present suffice. This clerk may therefore be entertained.

(*d*) The extra clerks required for the Hospet and Anantapur sub-divisions have been disallowed as the Government is not prepared to consider the question of strengthening sub-divisional establishments until financial prospects brighten.

Cuddapah Division.

(*e*) As regards the special establishment proposed for the Chepad channel, the attention of the Superintending Engineer is drawn to the remarks of the Chief Engineer for Irrigation in which the Government concurs. The services of the two temporary clerks should accordingly be dispensed with. A special draftsman on Rs. 100 having been separately sanctioned in G.O., No. $\frac{870}{A}$ W., dated 21st March 1899, for completing the plans and estimates of this project, the draftsman on Rs. 40 provided for in the proposition statement is unnecessary. The four temporary peons should also be discharged when the survey work is completed. The employment of the sub-overseer may be continued if the work is not wholly different from the sanctioned design.

Kurnool Division.

The sub-overseer on Rs. 35 required for this division has been allowed, pending explanation as to the necessity for his retention, which should be submitted as early as possible.

2. The sanction accorded in these Proceedings has been registered as Provincial No. 3 W. of 1899–1900, and classified as Establishment, Temporary.

3. The following telegram will be despatched to the Superintending Engineer, III Circle:—

"Your 849 W., 28th February. Temporary draftsman on Rs. 30 and accounts clerk for Bellary Division office sanctioned."

Reference to Chief Engineer's memo No. 5613C d/13th December 98, communicated with your Endorsement No. 155 d/9th January 99, I have the honour to forward herewith an application for the continued employment of the temporary Establishment in this Division for the official year 1899-1900 and to offer the following remarks which will justify the continued employment of the Establishment included in the statement.

CHIEF ENGINEER
FOR IRRIGATION.
18 FEB. 1899
1/II III

Chepad Project Sub Division Establishment.

As the revised Estimate of the Project is almost ready for submission for sanction and as it is almost certain that the Project works will be resumed during the next official year, the continued employment of the Establishment (excepting the draftsman whose services will be

required

In G.O. No. 641 W. D/…

establishment entered in the applica…
…ent was sanctioned for one year for investigating
only 99 tanks out of the 170 that were stated
in the above G.O. to be in need of repairs.
According to your recent orders it is
necessary to investigate all the tanks
whether Government or Private which
affect the Railway line. This method of
investigation increases the number of tanks
to be investigated to a very large extent,
the approximate number amounting to 500
thus necessitating the continued employment of
the Establishment. The Supervisor in charge reports
that he will take about 3 years to complete
the work. Considering the number of the tanks

February 1899 fro
Supt., Executive Engineer, Bellary Divisi
to the Superintending Engineer, III Circle, Bellar

I have the honour to request you will good enough to obtain very early orders, by wi if necessary, on the proposition statement subm with this Office № 281 dated 12th ultimo, especially with regard to the temporary draftsman & tempora accounts clerk as the present sanction in their case will expire on the 28th Instant; and in the first week of March 1899 respectively. I may mention, howe that in case their retention is not sanctioned the work of the drawing and accounts branches will fall into hopeless arrears.

№ 849W Dated 28 February 1899.

Copy submitted to the Chief Engineer P. W. Department for favour of orders in continua of this Office № 689W× dated 17th February 1899 sent through Chief Engineer for Irrigation.

NOTES.

Reference to P. W. D. Code.

Chapter I, Para. 30.

1. All proposals for changes in the scales of permanent establishments must be accompanied by a statement in Part I of this form when the changes relate to the engineer or upper subordinate establishments and in other cases by a statement in Part II of this form.

2. The column headed "present scale" should invariably show the existing *sanctioned* scale (not the strength of the establishment as it actually stands at the time), and should be verified by the Examiner before the statements are forwarded to the sanctioning authority.

289

80

Remarks.

A The pay of the Draftsman is increased by Rs 5/- as the Executive Engineer reports that he is very intelligent and hardworking and is of great assistance to him.

B. The present sanction expires by the middle of March 99 and the Executive Engineer proposes to put him on investigations of Hagari-Gonamakally and other projects for forming large reservoirs and therefore applies for the surveyor's this Lascar's retention for one ye

C As the arrears in the Accounts Section will not be closed by first week of March when the present sanction will expire the Executive Engineer proposes to keep him on till end of June 99 by which time he hopes to clear off all the arrears.

D This Extra staff is required owing to increase of work in the Division on account of Tanks Restoration Scheme Estimates. Full explanation called for in the Chief Engineer's Memo No 737C D/2.2.99 will be shortly submitted.

E As the works in the Sub Dn offices are increasing it is found necessary to increase the strength of the Sub Dns by one clerk each on Rs 20/-

Copy of extract of letter No. 4228 D/4.2.99 from the Executive Engineer Cuddapah Dn is enclosed which explains the necessity for the continued employment of the Establishment for Chepand Sub Dn and Railway affecting Tanks Party.
