FURTHER PAPER

Forest No. 12 Misc., dated 6th. January 1899.

Forest No. 12

Read endorsement of E.D.M. Hooper Esq., Ag. Conservator of Forests Northern Circle, dated 23rd. October 1898, No. 1467 forwarding Kurnool Collector's letter submitting plan and estimate for the repair of the Cumbum bungalow.

RESOLUTION:-

RESOLUTION:- In the letter read above, the Collector of Kurnool reports on the present condition of the Cumbum and the Nandyal forest bungalows in his district.

2. The former building was purchased from the Southern Mahratta Railway Company in 1894 for Rs.500 and subsequently repaired at a cost of Rs.1872. The Collector reports that the building, which is a large and commodious one, stands in need of further repairs and improvements and submits an estimate therefor amounting to Rs. 1752, a sum which is raised by the Conservator to Rs.1777. The Conservator states that

is raised by the Conservator to Rs.1777. The funds are available for carrying on the work, and in view of the fact that the building is a large one and that the repairs and improvements are reported to be essentially required, the Board resolves to sanction the estimate as revised by the Conservator.

3. The Mandyal bungalow was constructed by the Forest Department in 1888 at a cost of Rs.11,190. In 1893, several ominous cracks having appeared in the building, an estimate for Rs.2700 was sanctioned in G.O.No.2754 W.dated 27-10-'93 for the necessary repairs and improvements, and the work was executed by the D.P.W. Further repairs and improvements were, however, found to be subsequently necessary, and Govt., after consulting the P.W.D., sanctioned an estimate therefor for Rs. 3200 (vide G.O.Mis.No.3540 Rev:dated 3-9-'96). The work under this estimate was executed departmentally under the authority -- conveyed in G.O.Mis.No.3134 Rev:dated 19-6-'97.

4. The Collector now reports that the bungalow has again cracked in several places and is in a dangerous condition. He attributes the appearance of cracks chiefly to the instability of the foundations owing to the action of the black cotton soil and partly to the earthquake of 1897. As the cracks are increasing in number notwithstanding

the fact that the eastern side of the building where they at first began to appear was completely rebuilt with new foundations dug to a depth of 14 ft., the Collector proposes to dismantle the bungalow and use the materials elsewhere. Otherwise, he adds, the building may come down and the materials will become useless. He also brings to notice that the compound of the bungalow contains a good well and godowns and suggests the possibility of the building being converted into a single-storeyed house. The Conservator, however, is in favour of abandoning the bungalow and thinks that it should never have been built on its present site.

5. Before ordering the dismantling of the bungalow, the Board considers that it will be desirable to obtain the opinion of the officers of the D.P.W. as to whether they recommend the adoption of such a course. The papers will therefore be submitted to Government for orders.

6. In the meantime, the Board approves the Collector's proposal that the building should be vacated, the bungalow at Cumbum being made use of, if necessary, for the residence of the Sub-Divisional Officer.
