I cannot say with truth that the book is a quite satisfactory history of this great project. The information given therein is somewhat sketchy & meagre. & Mr. Mackenzie has not been always judicious in his selection of what matter to include & what to omit. But he has had a very difficult task to perform, & I believe that he has done his best with the materials available. I therefore recommend that the honorarium be

Sanctified

I

Resubmitted to the Council. Mr. Mackenzie himself says it is many years too soon to write a history of the project, the migration being still in a very early stage of development but I think he has done what he could with the materials available. It is difficult to judge what the book will be worth when published complete with the maps and plates. It will certainly be a more finished work than it now appears. I cannot pretend to judge as well as Mr. de Winton about the portion relating to the construction of the dam to which the book is principally devoted. At the same time, as Mr. de Winton says Mr. Mackenzie has done his best I think the £4000 should be paid.

Dated 29

Despatched

} November 1898.

Sir,

I have the honour to send you under
separate cover the final proof of the Perigee
History - With the exception of a few typogra-
phical errors (which I have corrected in
another copy for the Government Press), this
is the book as it will appear.

2. The illustrations are to be produced in Calcutta. The plans are being prepared for printing in the Survey Office. There remains therefore nothing further that I can do, and I respectfully beg that Government will allow the disbursement of the honorarium sanctioned.

I have the honour to be,
Sir
Your most obedient Servant

Atmacksenzie

Executive Engineer
Visagapalam Harbour Works
