## GOVERNMENT OF INDIA. PUBLIC WORKS DEPARTMENT.

*Abstract of contents of Railway Circulars issued in 1898.*

[GENERAL DISTRIBUTION.]

| No. | Branch.                  | Subject.                                                                                                                                                                                                                           |
|-----|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1   | Railway Traffic ...      | Modification of Rule III, Appendix A, of the General Rules of 1895, for working open lines of railway in British India administered by the Government, regarding the carriage by railway of dangerous goods other than explosives. |
| 2   | Accounts, Railway ...    | Simplification of the stores portion of the capital budget estimates of railways.                                                                                                                                                  |
| 3   | Railway Construction ... | Corrigendum to the revised schedules of standard dimensions to be observed on all 5' 6" and metre gauge railways, respectively, in India, in regard to the minimum distance of Telegraph Posts.                                    |
| 4   | Ditto ditto ...          | Powers delegated to Government Inspectors to sanction modification of rules relating to the method of carriage of long rails or girders on railways on which there are no abnormally sharp curves.                                 |
| 5   | Railway Stores ...       | Amended classification of tool steel to be observed in the preparation of indents, by all branches of the Public Works Department.                                                                                                 |
