G. O. No 1027 W dated 10th April 1899

Read the following :-

Letter from the Superintending Engineer III Circle, No 1671 W dt 1.5.99

Endorsement thereon by the Chief Engineer for Irrigation, dt 3rd May 1899

Circulated to His Excellency the President

To be dated 9th

ORDER. No: 1248/A W dt 5.5.99.

In the circumstances explained by the Superintending Engineer, sanction is accorded to the retention of the following temporary establishment employed on the Chepad project, Cuddapah Division :-

(a) 1 Draftsman on Rs 40 per mensem — to end of July, 99.

(b) 2 clerks, one on Rs 30 and the other on Rs 20 per mensem — } for such period as may be necessary

(c) 4 peons at Rs 6 each per mensem }

2. This sanction has been registered as Provincial No 10 W of 1899-1900 and classified as Establishment, Temporary.

3. The following telegram will be despatched to the Superintending Engineer :-

"Your 1671 W First instant. Retention of temporary establishment, Chepad project, sanctioned"

[P. W. 42-A. 1,000—2-3-99.]

Note. In the application for the continued employment of the temporary establishment required for the III Circle during 1899-1900, the S.E requested sanction for the whole year to the retention of the clerks and peons entertained for the Cohepad project, while the services of the draftsman on Rs 40 were applied for for a period of 6 months. The application was submitted through the Chief Engineer for Irrigation, who remarked that the reasons given by the Supdg Engineer did not justify the maintenance of the special establishment asked for; that the clerks and the draftsman could be dispensed with at once; and that the peons would not be required when the survey work was completed. It was therefore ordered, in G.O No 1027W, dated 10th April, 1899 that the services of the clerks should be dispensed with; that the draftsman on Rs 40 was unnecessary as a special draftsman on Rs 100 had been sanctioned; and that the peons should be discharged as soon as the survey work was completed.

2. The Supdg Engineer now reports that the services of the temporary draftsman on Rs 40 are absolutely necessary till the end of July 1899, as the plans and estimates require considerable alterations, and as tracings of all plans have to be made, and that the work cannot be done by the special draftsman on Rs 100 without assistance. He adds that the draftsman employed on the project resigned in March 1899, that there was some delay in filling up the post, and that, owing to sickness, the drawing staff in the Circle is below strength.

3. As regards the clerks and peons, the Supdg Engineer states that their services will be required only for a very short time, and that he will make every endeavour to dispense with the establishment as soon as possible.

4. It is proposed to sanction the application which has been recommended by the Chief Engineer for Irrigation.

CHIEF ENGINEER FOR IRRIGATION. 2ND MAY. 1899. 23 D

To

THE Chief Engineer
P. W. D.

Through The Chief Engineer for Irrigation, Madras.

Sir,

Enclosures.

With reference to para 1 (a) of G.O. No: 1024 W. dated 10-4-99 regarding the Special establishment for the Chepad Project I have the honour to state that—

(a) The clerks' services will be dispensed with as soon as Mr. L. D. Venkatrawayer finally hands over charge of the Sub-Div. to the Executive Engineer, Cuddapah Div. with all records &c.

(b) The peons will be discharged as soon as the field work, of which there is still some to be done on the distributaries, is completed. This will be very soon.

(C) The services of the draftsman on Rs: 40— cannot be

be dispensed with for at least 3 months more from 1st May 1899 as the plans and estimates of which there are a very large number as will be seen from the list already sent with this office No: 1191-I- dated 23-3-99, require considerable alterations if the works are to be constructed economically - also it will be necessary to make tracings of all the plans which have been received in pencil from the Exe: Engineer Cuddapah.

2. I have to bring to your notice that the original Sanctioned plans and estimates did not contain a single design for masonry works but merely a longitudinal and cross sections of the channel and that the plans and estimates that are now being prepared are not revised ones but altogether new designs -

3. I will make every endeavour to dispense with all the temporary establishment as soon as possible, but I am convinced that it is absolutely necessary to retain the draftsman for a further period of 3 months as the alterations &c now being made in plans and estimates, and the tracings cannot be done by the draftsman Sanctioned in G. O. No. 870/4 dated 21-3-99 without assistance.

Regarding promotion of Special Draughtsmen Murugasem Mudr.

MB

R 1402/99 flag X

4. The draftsman employed on this project resigned in March to take up an appointment in the Chief Engineer for Irrigation's office, and there has been delay in filling up the post. The new man only joined on 21-4-99 & is now owing to sickness the drawing staff in the Circle is below strength.

5. Under the above circumstances I request that you will be good enough to obtain the Sanction of Govt: to the retention of the draftsman on Rs: 40 for a further period 3 months from 1st May 1899. As regards the clerks and peons, the exact period for which their services will be required will be reported shortly. It will be only for a very short time, but the sudden and altogether unexpected stoppage of this establishment will not lead to so much inconvenience if my proposals are accepted. I shall be obliged if your orders can be communicated to me
