READ—the following paper :—

From Captain W. M. ELLIS, R.E., Executive Engineer, Kistna Northern Division, to the Superintending Engineer, II Circle, dated 4th March 1899, No. 606 S.E.

With reference to your endorsement No. 52 K.N., dated 2nd February 1899, on G.O., No. 242 W. of 25th January 1899, sanctioning an increase of pay of Re. 1 to the three extra lascars specially sanctioned for service with the overseers, upland taluks, Kistna, I wish to point out that when I applied for this increase I believed that the general increase in the pay of peons sanctioned in G.O., No. 2261 W., dated 1st September 1898, would be held to apply to all peons employed on the regular scale whether temporary or permanent and whose employment is not the subject of special sanction.

2. It appears, however, that a ruling to a contrary effect has been made—*vide* Chief Engineer's memo. No. 4578 C., dated 17th October 1898.

With regard to this ruling, I would respectfully point out that the pay of peons for which specific sanction has not to be obtained is not regulated by any special local requirements but by the pay which would be received by permanent men occupying similar positions.

It seems to me a hardship that no rise in pay is granted to the temporary men when the permanent men occupying the same positions are given an increase. Temporary men for obvious reasons are generally paid at least as much as permanent occupants of the same appointments.

3. If however no concession can be granted to the temporary peons employed without special sanction in the upland taluks of this division, it would be unjust and only create jealousy and discontent to give a rise of pay to the extra men specially sanctioned.

I would therefore ask under these circumstances that the sanction given in the Government order under reference be cancelled.

No. 160 W.

Copy forwarded to the Chief Engineer, Public Works Department, with a recommendation that G.O., No. 242 W., dated 25th January 1899, be cancelled.

Note. S.Es can appoint a temporary lascars for each detached officer or

their circles. Captain Ellis
contends that the pay of this class
of men for whom specific sanc-
tion has not to be obtained, is
not regulated by any special
local requirements, but by the
pay which permanent men
doing similar duties receive,
and that temporary men,
for obvious reasons, require
to be paid more than permanent
men. The contention seems
to be well grounded. It is
proposed to allow the increase
of pay to such temporary men
as are employed for personal
attendance on officers and
subordinates.
