London, S.W.
S.D.O. 1895.

India Office,
Whitehall,
London, S.W.

21st October 1898.

Sir,

Referring to your Public Works Indent No. 8 of 1898/9, item 24, Mild steel round $1\frac{1}{8}$ ". $1\frac{1}{2}$ ". $1\frac{3}{8}$ ", the column headed "quantity now indented for" is filled in as "one ton". A note is, however, added alongside the column, and in front of it, "5 tons of each". The total cost is estimated in the indent at £76.2.6. but the correct total, for 15 tons at £5.17.6 per ton (the rate quoted in the indent) should be £88.2.6.

In view of these discrepancies I have the honour to request that you will inform me what is the quantity actually required.

Pending the receipt of your reply the supply of this item will be suspended.

I have the honour to be, Sir,

Your obedient Servant,

R. Crozier

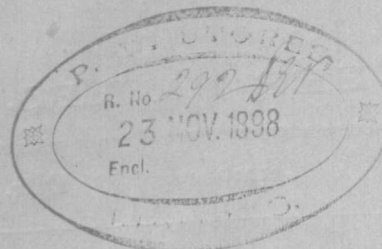

Deputy Director General of Stores.

The Secretary,
Public Works Department,
Madras.
