READ—the following paper :—

From the Executive Engineer, North Arcot Division, to the Superintending Engineer, IV Circle, dated 1st May 1899, No. 231 S.E.

I have the honour to submit a proposition statement providing for an increase of pay to the conservancy establishment of this division.

2. Of the three best Superintendents in the division, one Raja Row has just been appointed to the new Minor Irrigation department. The other two have just asked me, not for the first time, either for an increase of pay, or to recommend them for Sub-overseer's posts, and as they are both worth distinctly more than their present pay and are very well qualified to be Sub-overseers they are not unlikely before long to obtain promotion outside the division if they are not given the promotion they deserve within it. They are the same two who were promoted under G.O., No. 2004 W. of 14th August 1895.

3. The only two other capable men on the list—Natesa Aiyar and Kuppuswamy Aiyar—have not received promotion for four years and have earned an increase for which provision of Rs. 5 to each has been made in the statement. The departure of Raja Row leaves a vacancy which has now to be filled. On the occurrence of the last vacancy but one, it was only after advertising for a long time that one single application was received from a qualified man. For the last vacancy only one qualified man applied. For the present vacancy I have as yet received no qualified applications. From this, and from the fact that all the remaining Superintendents, excepting the four abovementioned and barring two just joined, are incapable and not worth even the pay that they get, the inference is that the pay is not sufficient to attract men of the class required. I have therefore provided one place on Rs. 25 in the proposed scale, and with your permission I propose offering this place to the new comer. Not one of the present men drawing Rs. 20 is in the least deserving of promotion, and I hope that by offering Rs. 25 the vacancy now to be filled up will attract applicants of somewhat better qualities.

4. The increase of the new over the present scale will be only Rs. 12 in all.

5. The Ranipet Sub-division officer recommends the Poiney Eastern Channel Superintendent for Rs. 2 increase, which is provided in the statement.

No. 107/I.

Submitted to the Chief Engineer for Irrigation for favour of obtaining the sanction of Government to the proposed increase of pay.

Endorsement by the Chief Engineer for Irrigation, dated 19th May 1899.

Office-note from the Examiner, Public Works Accounts, Madras, dated 9th June 1899, No. 1824 B./E.

The whole of the present scale of conservancy establishment sanctioned for the North Arcot division has been omitted. The omissions have been noted by this office and printed in italics.
