Additional Upper Subordi
nates for the South Arcot
Division

FOR ORDERS.

The Executive Engineer,
South Arcot Division, has
shown⁽¹⁾ that for the proper
working of his Division, two
overseers are required in
addition to his present staff.
The Superintending Engineer,
V Circle, is unable⁽²⁾ to provide
the men required by transfer
within his Circle, nor can
the demand be met by
transfers from other Circles.
The necessity for strengthening
the Upper Subordinate Staff
of the South Arcot Division
is, in a great measure, due
to the fact that the existing
staff consists mainly of

In the letter flagged A the Ex: Engineer, South Arcot Division, brings to notice how undermanned his division is, & points out that it is absolutely necessary to increase the number of Upper Subordinates in the division for the efficient supervision of work & the general working of the division. He accordingly requests that an addition of 2 Overseers be permanently made to the division & that an experienced Upper Subordinate be temporarily posted ^{to it} for charge of the Chidambaram Drainage Scheme works. The staff of the division at present consists mainly of temporary Upper Subordinates & the Ex: Engineer

~~DW~~

men replaced by permanent men.

2. As regards the Asst. Engineer's request for permanent men it may be said at once that there is no probability of meeting his demand with the present strength of the permanent establishment. The demands on the permanent staff are already getting most difficult to comply with, & this is largely due to the Corp. Architect & the Supt. of Works, Light House Division, carrying out scattered works all over the Presidency, & necessarily having to be supplied with an ever increasing staff of experienced subordinates or Asst. Engineers since the works they carry out are numerous & important.

3. If the staff of the S. Asst. Division must be strengthened it can only be done by posting temporary upper subordinates to it. The permanent strength of the upper subordinates for the V. Circle is 40, & the circle is

is now up
The Supt. Engr. was therefore requested to state whether it is not possible to provide for the additional men required for the South Arcot Division by redistributing among the divisions the staff of upper subordinates sanctioned for the Circle. The Supt. Engr. replies that it is not possible to do so at present. There are no Temporary upper subordinates available for transfer permanently to the South Arcot Division, & there is no other way of meeting this demand for extra establishment, which the Asst. Engineer & Supt. Engr. consider to be necessary

the strength of the Temporary
 Upper Subordinate Establish-
 -ment. The undersigned
 is therefore constrained
 to solicit sanction to the
 scale of Temporary Upper
 Subordinates sanctioned
 in G.O. No. 803 W dated 15th
 March 1899 being increased
 by 3 Overseers on Rs 60.

Will be seen from
 Mr. Smith's statement of
 his requirements that he
 wants two overseers, perman-
 ently one for Cuddalore and
 the other for Tiruvannamalai.
 Mr. Elliot is under-
 stand employed on the Chid-
 ambaram drainage scheme.
 An addition of two overseers
 appears all that is required
 as far as Mr. Smith's account is
 concerned.

I see that 3 men are
 apparently necessary
