1. It will be the duty of the officers of the department, on requisition of the local authorities, to provide quarters and all other necessary buildings, to the extent allowed by the regulations, for troops and public military establishments entitled to, and requiring accommodation, and for the families of soldiers on actual service. The executive engineer will arrange for this by allotting public buildings which may be vacant, or which can be vacated, or where no suitable or available public buildings already exist by hiring or otherwise engaging suitable quarters or buildings as may be requisite, to which course the previous sanction of the Government will be obtained when the rent proposed exceeds the authorised scale.

2. Applications for the sanction of the Government to the hiring of quarters for military subordinates when the proposed rent exceeds the authorised scale will be submitted in this form. The sanction, when given, will hold good in Nilgiri division for a period not exceeding twelve months, and in all other divisions for a period not exceeding six months. Executive engineers should endeavour within the period of sanction to provide other quarters at a rent not in excess of the authorised scale; but when this is not practicable, renewed sanction for a further period not exceeding twelve or six months, as the case may be, should be applied for beforehand. Executive engineers should be careful to ascertain the probable length of time for which quarters are likely to be required before entering into any agreement with a landlord.

3. The hiring of houses for military purposes is to be strictly limited to meet the essential requirements, according to the regulations for the accommodation of troops, and for the families of soldiers and for medical and other subordinates authorised to be provided with free quarters and is not to be extended to the provision of offices and such like miscellaneous purposes, unless under the orders of the Government.

4. Should buildings be hired by the military authorities without the intervention of the department and without the sanction of the Government, the Executive engineer will not be at liberty to defray the charge from the funds at his disposal until sanction is obtained.
