Note:

In G.O. No 2245 W, dated 1st September 1898, the entertainment for a period of 6 months of a tracer on Rs 15 per mensem for preparing tracings of the Periyar Works was sanctioned. Two tracers were employed, one from June to 18th October 1898, and the other from 25th October 1898 to 30th April 1899. The total number of plans completed by the two tracers was 110 and the salary drawn by them was Rs 145-10-3. The officer in charge of the Periyar Works considers that the work done by both the tracers could be finished in 5 months, taking 25 plans as the average work of a tracer for a month, that the total cost should not have exceeded Rs 75, and that the tracers have actually finished about 1/2 of the work they should have done. As it is reported that the services of a tracer are required for at least 6 months to complete all the plans, it is proposed to sanction his entertainment for that period. The attention of ~~the~~ the officers in charge of the Periyar Works will however be drawn to the want of supervision exercised by him on the work of the tracers hitherto employed and he will be be directed to see that all the plans are completed within the period for which a tracer is now proposed to be sanctioned.

Letter from Mr. A. V. Ramalinga Aiyar, Assistant Engineer, Periyar works, Madura to the Superintending Engineer, 6th circle, Trichinopoly, dated 28th May 1899 No 64 S.E.:——

With reference to your memo No 661 M D dated 28th April 1899. I have the honor to submit herewith the explanation obtained from the Head Draftsman and to report as follows:—

One Venugopal Naidoo was appointed as a tracer on Rs 15 on 23rd May 1898. The present Head Draftsman says that the work done by the tracer was only 20 plans when he joined his duties on 3rd September 1898. The services of the tracer were dispensed with on 18th October 1898. and he appears to have completed 25 plans in Septembe and October. This tracer has done in all 45 plans from June to 18th Octobe 1898 and has drawn a salary of Rs 57-9-3

. One Siwasubramanya Pillay was ppointed as a tracer on 25: October 898 and his services were dispensed ith on 1st May 1899. He is reported o have taken 3 weeks leave in December. he total number of plans completed by him is 65 and the salary drawn by him is Rs. 88-1-0.

. In my opinion the work done by oth the tracers could be done in 5 months, taking 25 plans as the average work of a tracer for a month, and the total cost of the work should not have exceeded Rs. 75. The tracers have actually done about 1/2 of the work they should have done.

+. The longitud[illegible] section of ll Branch channe[illegible]out 72 miles in total length) [illegible]lans of about 100 masonry wo[illegible]e still to be traced and it [illegible] at least 6 months to fin[illegible] them.

As the preparation of estimates for maintaining and abandoning tanks are just being done, I would respectfully state that it would be impossible to get this work done by the Drawing Branch and I therefore request that permission may be given for entertaining a tracer at least for a period of 6 months.
