

Public Works (1899) Department.

G.O., No. 1856 W

DATED 18th July 1899.

[Despatch Abstract.]

Establishment

The establishment, till the 29th February 1900, of a draftsman on Rs 50 per mensem in the Engineering Dept, sanctioned.

B

disorder had to be rearranged. The S. E. supported the application.

2. The Suptg. Engineer was informed in Office Note No. 1386 C d/6th March 1899 that, unless very strong reasons could be adduced, the entertainment of an additional draftsman as a permanent measure would not be sanctioned, and was asked to report whether the plans could be rearranged with the help of a temporary draftsman and if so how long his services would be required.

3. The Executive Engineer reports that the Division had an additional draftsman ever since the commencement of Tank Restoration Works, that the appointment ceased just before the amalgamation of the Division with the Buckingham Canal Division, that the entertainment of an extra draftsman is absolutely necessary for Tank Restoration Works, and ^{that} the man can also be engaged in arranging the plans of the Office.

4. The Suptg. Engineer states that a permanent draftsman is not necessary, that a temporary one is required so long as the Tank Restoration Works are in progress, and that a qualified man cannot be obtained for less than Rs. 50, and requests that the Ex. Engineer's application may be sanctioned.

5. As there is a grant of Rs. 50,000 in the current year for Tank Restoration Works in the Chingleput Division, and as the services of a draftsman are

necessary in connection with these works it is proposed to sanction the application.

3. The one thing necessary in my opinion
before any approach can be made to any
Systematic

the establishment employed in this Office
be increased to 2 Draftsmen 1st class,
1 Draftsman 2^d class & 1 Draftsman 3^d class.

5. In a very mixed Division such as the
Chingleput Division it is hardly necessary
for me to say that it is absolutely
impossible for an Executive Engineer to manage
it efficiently with an inadequate staff of
draftsmen and I therefore request you will
represent to the Chief Engineer, the neces-
sity for providing the staff now asked for.

6. I should state that the drawings
of the Buckingham Canal have been arranged
by Assistant Engineer Mr. Bant who was
put on special duty in 1897 for this purpose.

(True copies)
P. W.

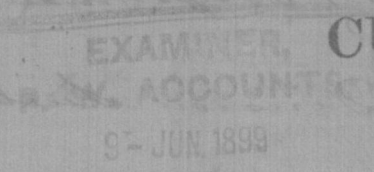

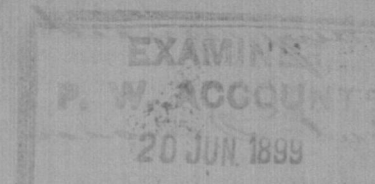

Forwarded to the Chief Engineer
P. W. Department with the request that
if possible the extra establishment asked
for may be sanctioned.

Office Note.

Order

To S. L. F.

unless my name is attached,
It is not likely that
the Govt. will sanction an
additional draftsman for the
Chingleput Division as a per-
manent measure. Please say
whether the plans can be re-
arranged with the help of a
temporary draftsman, and if so
how long his services will be
required. The pay you propose
to give him should also be
reported.
