21st October 1898.

Sir,

Under Items 183 to 201 of Madras annual Public Works indent No. 1 of 9th March 1898, 3 dozen of each of certain bib cocks and stop valves are asked for, but in the duplicate copy of the indent the quantity required is entered as No. 3 of each.

As the estimated cost given in the indent corresponds approximately with the cost of No. 3 of each item, and would not cover the cost of 3 dozen of each, only No. 3 of each have been ordered, and I shall be obliged by your informing me whether any further quantity will be required.

The demand under items 183 to 186 is for certain bib
cocks with galvanized tops. It is thought that spanners
must be intended by the term "top" and the cocks have
therefore been ordered with a galvanized spanner for each.

I have the honour to be, Sir,

Your obedient Servant,

Reprozier

Deputy Director General of Stores.

The Secretary to Government,
Public Works Department,
Madras.
