ORDER.

The Chief Engineer, P.W.D.
and the Chief Engineer for
Irrigation will exercise the
powers of a Superintending
Engineer as regards sanc-
tion to estimates for works in
any Circle which may
happen to be in charge
of an ~~Executive Engineer~~ offi-
cer who has not the powers of sanc-
tion of a Suptg Engineer.

All Suptg. Engineers.

The Chief Engineer for Irrigation.

Exr. P. W. Accounts.

In No. 766 W. dated 21st
March 1898, the Chief Engineer,
P. W. D. and the Chief Engineer

for Irrigation men authorized
to exercise the powers of a Supt.
Engineer as regards sanction
to estimates for works in the I
Circle so long as that Circle
was in charge of an Executive
Engineer. The Circle was then
in charge of Mr. De Morgan,
an Executive Engineer.

2. The charge of the II Circle
being now held by an Executive
Engineer, the Chief Engineer
for Irrigation points out that
it must be convenient to
make the above order applicable
to the II Circle also. He takes
this opportunity to suggest
that a general order might be
issued authorizing the adoption
of this procedure in any Circle
not in charge of a Supt. Engineer.

It is proposed to sanction this ^{it} so that Cont. may not be
troubled with estimates which
do not usually come before
it. The proposal is in accord-
ance with P.W. Code, para 22,
Chapter III, Vol. I (2nd part of clause

(a) under which a Chief Engineer
may exercise the powers of a Supt. Engineer
when he has no such officer under his orders.

Code para 271.

There does not appear
to be any necessity now
for the issue of the orders
suggested by I

(1) as regards the II
Circle, Capt. Ellis is now
a Supt. Engr., 3rd Class, tem-
porary rank, so no order
is required in this case.

(2) The necessity for a
general order also does not
now exist. There are now
no Supt. Engineers on special
duty, & if any Supt. Engineer
goes on leave, promotions
to the Supt. Engr. class
will be advisable. There
is therefore at present no
likelihood of any Circle
being held by an Executive
Engineer.

It may often
happen that for

Short periods e.g.
When an S.E. is on
Privilege leave the
Circle may be in
charge of an Mee-
Engineer and
advantage may be
taken of S.I. having
raised the question
to pass a general
order as suggested
by him

authorized Ex. to
exercise the powers of
an Ex. as regards
Sanctions & estimates
for works in the I
Circle the Circle then
being in charge of an
Ex. Engr as the
II Circle is now in
charge of an Ex.
Engr. it would be

Convenient if the
order was made
applicable to the
circle —

If there is no objection

aimed at is only to allow
me to dispose of certain
sanctions in my capacity
of Lt. instead of as I
which involves some
additional routine.
