G.O.	No.	Department.	Date.	G.O.	No.	Department.	Date.

Superintendent's bungalow was the only one without a second story, and requested that the last mentioned building might also be provided with an upper story. This letter was forwarded by the Inspector General of Police for the remarks of the Chief Engineer.

3 The Chief Engineer in his letter No. 2518 C d/30th May 1899 informed the Inspector General of Police that the construction of the residence for the District Superintendent of Police had advanced 12 feet above the ground, that it was therefore too late to revise the design which had been sanctioned by the Government of India, that the revision would necessitate the dismantlement of a considerable portion of the new building, that the house, as designed, was a decidedly good one and would satisfy the needs of the occupant, and that the construction of an additional story which would increase the cost of the building could not be proceeded with, without the prior sanction of the Government of India. The Chief Engineer also informed the Consulting Architect orally that he could proceed with the building in accordance with the sanctioned design. The Consulting Architect in his letter read above, requests that the Chief Engineer's oral permission may be confirmed. Orders are solicited as to whether this may be done.
