Current No. 5499

Letter No 338 W

Dated 4 July 1899

From the S.E. II Circle

NOTE BY TECHNICAL SECTION.

Name of work Extending a Clerk's
room attached to the Dist.
Munsiff's Court at Angol.
Est. No. 6130

In G.O. No. 2492 of 7th Sep.
 1897, the S.E. II Circle was
 asked to prepare plans and
 Estimates for demolishing and
 reconstructing the buildings at-
 tached to the Dist. Munsiff's
 Court at Angol.

The S.E. after inspection of
 these buildings decided that
 new buildings were unnecessary,
 and that the additional
 accommodation required, could
 be secured by certain improve-
 -ments to the existing buildings
 and by extending the existing
 on a Clerk's room and a
 record room. The present esti-
 -mate has been prepared ac-
 -cordingly -

Soil - Surface - ordinary earth
 Subsoil - white chalk
 below 2 feet.

Foundations - Depth $2\frac{1}{2}$ ft - Bottom
 2 ft concrete in lime mortar
 remainder rough stone in mortar

To W. The estimate
 may be sanctioned.

W.E.
 16/7

L.H.

17/7/99

There are W's remarks there
 to estimate revised accordingly
 It seems probable not
 suitable - Estimate
 cannot be made.
 Extra note attached
 20. VII. 99

Basement - 1 ft high - rough stone in mortar

Superstructure - Brick in mortar

Plastering - Inside & outside 2 coats of chunam plaster

Flooring - 4" Concrete floor laid with cement.

Roofing - Gert insins. Flat and panicles on teak rafters.

Existing building - unroofing & re-roofing with half new flat and panicles

Recess room - Jernice over steel joists and steel borders.

Roof timbers - Brucumers - high rafters and half plate of teak wood.

Rafters are a class of palmgro wood. It is expected that palmgro rafters have been used so as to conform with the system in the existing building.

Scantling correct.

Windows & steel joists in Recess room - There have been Cal. culated correctly - The dead load would have been taken as 200 lb & 14 ft. This might stand as the J.E. remarks that an upper story might be added when necessary.

Roof of Recess room - I have with brick on edge etc.

No racks have been provided in the estimate - A supplementary estimate will be sent by the J.E. as soon as he receives the revised standard design.

Notes - Detail data accounts - my estimate - another

I don't like this but I don't know what other flooring is available

Andaloh slabs are said to be available but they should be substituted

The plan & estimate have been counter-signed by the Dir: for the purpose of the work approved in the present Sept.

Amr. 13-VII-1899

Dir.

Submitted for orders.

If the estimate is approved, it may be sanctioned for execution when funds are available

Amr. 17-VII

Dir. 13/7/99

Is the approval of Judicial Dept. necessary? If not, Dir. 15/7

Not necessary. If the estimate is approved, the draft order sanctioning it may be sent to the Judicial Dept for counter-signature. This is the procedure usually followed
