Note for His Excellency.

It is proposed to obtain ten copies of this useful work for distribution amongst Superior officers of the Department. When the question of applying for copies arose during my absence, Colonel Smart advised the Government that it was ^{not} necessary to apply for copies for distribution. I do not agree with his opinion. I think it will be a most useful aid to the Department, and therefore recommend the purchase of a limited number of copies for the use of Superior officers.

Simla, the 21st April 1899.

SIR,

I am directed to state for the information of the Government of Madras that an important treatise on Sanitary Engineering by Colonel E. C. S. Moore, R.E., has just been published. The book is a practical treatise on the collection, removal and final disposal of sewage, and the design and construction of works of Drainage and Sewerage, with a special chapter on the disposal of house refuse and sewage sludge. It contains numerous hydraulic tables, formulæ, and memoranda, including an extensive series of tables of velocity and Discharge of pipes and sewers specially computed by Ganguillet and Kutter's formula.

2. I am to enquire whether copies of this publication are required by the Government of Madras and if so, how many. The reason for this enquiry is that the publisher undertakes to supply 100 copies or more at the reduced price of £ 1 instead of at the published price of £ 1-10.

I have the honour to be,
SIR,

Your most obedient servant,

G. H. Walker
