FURTHER PAPERS.

Superintending Engineer's Office, 33 Circle,

BEZWADA, 24 July 1899.

No. 370 W

From

Captain W. M. Ellis R. E.

SUPERINTENDING ENGINEER,

II CIRCLE,

To

THE Chief Engineer,
Public Works Department.

SIR,

Enclosures.

I have to submit for your orders the case of Papunior V. J. Srenivasa Iyengar who was employed on special duty in preparing Nellore Projects first in the field and afterwards in the Circle office.

The case is very similar to that of Mr. Rajagopaul Iyengar submitted to you with this office No. 341W of 4-7-99

2. Mr. Spuniwasa Szungar was employed on Field Work up to the 13th January 1895 and from 14th January to 23rd April was employed in drawing up detailed designs and Estimates in the Circle office.

3. In G. O. No. 4902 of 17-2-99 the formation of a special temporary Sub-Division for the work comprised in the charge of Mr. Sreenivasa Iyengar was sanctioned up to 15-

Your orders are asked as to whether this sanction may be continued up to 23rd April 1899 when complete detailed estimates for the works (3 projects) were submitted. These estimates have been prepared in a very creditable manner and if under the circumstances the request made is allowable I recommend that it be granted.

4. While employed in the Circle office the Supervisor maintained a horse for which no allowance can under the rules be granted - The horse was left in Nellore as the Supervisor thought the transfer to the Circle office would only be for a short period. He has thus been a loser in this respect as well as in the matter of Sub Divisional allowance.

I have the honor to be,

Sir,

Your most obedient Servant

R. S.
Captain R. S.

Superintending Engineer,
II Circle

R. S.
12/5/99

No. 77 $\frac{A}{E}$

dated 23rd January 1899.

Forwarded to Government for favorable consideration and orders.

2. The petitioner's case is a special one as will be readily seen from the facts put forward in his representation. In point of qualifications he in every respect far excels the other men borne on the list of Accounts Clerks, and it is no fault whatever of his that his circumstances are now such as to eventually cause him to fall between two stools. It is true that he has at present got an appointment as Accountant of the Engineer's Office Harbour Trust Board, which in of pay is rather better than an 8th grade Accountant ship; but the time will come sooner or later when there will be no further need for his services under the Harbour Trust, and then, situated as he now is, it will be difficult to know what is to become of him.

3. In my opinion the case is a hard one, and one which should carry with it a preferential title to appointment to the Subordinate Accounts Examination on the occurrence of the next permanent vacancy without prejudicing his present appointment in Foreign

E. A. Deasy

Examiner P.W. Accounts, M.
