Copy of letter from the Director of
Public Instruction, Madras, No. 8402,
dated 27th July 1899:-

Under G. O. No. 987, Educational
dated 22nd December 1894, the fees for
the riding course of Engineer and Engineer
Subordinate students, who entered the
College of Engineering, Madras, prior
to 1896, have been borne from Provincial
funds, the Public Works Department
being debited with the fees of such of
them as have been drafted into it
immediately on the completion of their
practical course. All others who have
entered the College since 1896, have been
required to pay their own fees for the
riding course. The acting Principal
recommends that soldier students join-
ing the Engineer Subordinate class
any year be exempted permanently
from the operation of the above ruling
and that their equitation fees be paid
by Government. I beg to support his
recommendation.

2. From Article IX (iv) and (vi) of
the Rules of the College it will be observed
that the Military students are exempted
from payment of College fees and are not
required to meet any expense whatever from
the

at once, but had to await the arrival of homes from
their private funds during their entire
College course, including the year of
practical training. It does not seem,
therefore, fair to require them to pay
the equitation fees, which form practically
a portion of the "College fees," inasmuch
as the equitation course is a part of
the College course. If the above proposal
is approved, I beg to suggest that the
Public Works Department be required
to bear, as hitherto, the charge in the
case of soldier students entering that
Department immediately on the completion
of their practical course, the fees of the
rest being debited to the Educational
Department.
