GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—the following papers:—

Endorsement of the Examiner, Public Works Accounts, No. 1357 B./A., dated 3rd May 1899, on letter from the Superintending Engineer, II Circle, No. 118 Exr., dated 21st April 1899.

Office-note from the Examiner, P.W. Accounts, No. 2473 B./A., dated 25th July 1899.

Order—No. 2329 W., dated 5th September 1899.

In G.O., No. 331 W., dated 2nd February 1899, it was ruled that all proposals for the entertainment of monthly-paid servants, whose salary is debitable to "Works," should, with the exception of men employed on supervision of works, be submitted for the sanction of Government.

2. The Superintending Engineer, II Circle, having in his letter No. 118 Exr., dated 21st April 1899, asked the Examiner of Public Works Accounts for clear instructions as to the nature of appointments requiring the sanction of Government, the latter officer, in his office-note No. 1357 B./A., dated 3rd May 1899, inquired whether the Government Order was applicable to the watchers and milemen referred to by the Superintending Engineer, II Circle, and to anicut and other irrigation conservancy lascars classed as items (O) to (X) in G.O., No. 840 W., dated 28th March 1893.

3. The Examiner was called upon in office-note No. 3009 C., dated 4th July 1899, to submit a complete list showing all classes of establishment charged to "Works". This list has been received from the Examiner, but as the items have not been properly arranged and as some of them have been repeated, a revised statement has been prepared in the Secretariat and appended to these Proceedings.

4. It is very desirable that there should be a clear understanding among the officers of the department as to the nature of appointments for which the sanction of Government is necessary, and it is therefore proposed to decide once for all in what cases the sanction of Government should be obtained.

5. Items 1 to 4 and 7 should, under G.O., No. 840 W., dated 28th March 1893, be charged to "Establishment" and items 5 and 6 should be charged to the same head under G.O., No. 483 W., dated 24th February 1893. Items 8 to 12 should also be debited to the head "Establishment". The sanction of Government is thus necessary in the case of items 1 to 12.

6. In G.O., No. 1328 W., dated 17th May 1893, it was ordered that all proposals for the employment of watchmen for buildings and stores should be submitted for the sanction of Government. A similar order was passed in G.O., No. 331 W., dated 2nd February 1899, in regard to gardeners and coolies employed in watering plants and trees in the compounds of buildings. The sanction of Government should, therefore, be obtained in the case of items 13 to 17.

7. Items 18 and 19 refer to men employed on petty supervision of works, and it was clearly stated in paragraph 3 of G.O., No. 331 W., dated 2nd February 1899, that the sanction of Government was not necessary in such cases.

8. Items 20 to 106 have hitherto been locally sanctioned, and if the sanction of Government is to be obtained in these cases, it will increase the labour and correspondence in all the offices from the Secretariat downwards, and in the Examiner's office. Superintending Engineers are therefore informed that the sanction of Government is not necessary in the case of these items.

9. Kavalgars (item 53) are the same as watchmen. If these men are employed in guarding buildings or stores, sanction of Government to their entertainment must be obtained. If not, their employment can be locally sanctioned.

10. In the case of night watchers (item 107), sanction of Government should be obtained if the men are employed for the care of buildings or stores.

Item 105 - ~~Thinnivoram~~

There is no separate individual bearing the designation "Supt: Seven Pagodas". An allowance of Rs. 10/- per mensem, was sanctioned in G.O 1650W of 3-7-94 (Flag F) for the Supt: of the Lighthouse at Seven Pagodas for looking after the Ancient monuments. To meet this charge as well as the pay of a sweeper employed in connection with these Archaeological remains, a special provision of Rs 180 is made every year in the Provincial Budget on application from the Supt: Archaeological survey - vide para 13 of G.O. No. 449W of 11.2.99 Flag M and page 31 of the budget circulated with this order - No separate sanction is accorded annually to the employment of these men. ...

SIR,

With reference to your audit note on the Accounts of the Kistna Western Division for the month of January 1899 (an extract of which has been communicated to me) I have the honor to inform you that the undermentioned establishment of watchers or mile men is entertained every year to look after the banks and tender trees &c, and their pay is charged to the maintenance estimate of the canal to which the establishment appertains, and to enquire whether such establishment requires the sanction of Government with reference to G.O No 331W of 2.2.99.

(1) milemen on each canal employed to look after the canal banks and to keep the towpaths clean and to water the trees planted

15

along the canal.

(2) Watchers employed in looking after the banks of distributaries to prevent breaches that may be caused during the Irrigation season by ryots.

(3.) Watchers engaged to watch the materials where the work is under construction.

(4) Watchers engaged in looking after Iron punts, steamers, and dredges during the closure of canals or when they are under repairs and not in use.

(5) Men employed for watching nanal plantations in river sets.

2. Clear instructions as to the nature of appointments requiring the sanction of Government amongst those classified as watchers se are necessary and I request you will be good enough to favor me with your views on the subject.

I have the honor to be

Read—the following papers:—

Endorsement of the Examiner, Public Works Accounts, No. 1357 B./A., dated 3rd May 1899, on letter from the Superintending Engineer, II Circle, No. 118 Exr., dated 21st April 1899.

Office-note from the Examiner, P.W. Accounts, No. 2473 B./A., dated 25th July 1899.

Order—No. 2329 W., dated 5th September 1899.

In G.O., No. 331 W., dated 2nd February 1899, it was ruled that all proposals for the entertainment of monthly-paid servants, whose salary is debitable to "Works," should, with the exception of men employed on supervision of works, be submitted for the sanction of Government.

2. The Superintending Engineer, II Circle, having in his letter No. 118 Exr., dated 21st April 1899, asked the Examiner of Public Works Accounts for clear instructions as to the nature of appointments requiring the sanction of Government, the latter officer, in his office-note No. 1357 B./A., dated 3rd May 1899, inquired whether the Government Order was applicable to the watchers and milemen referred to by the Superintending Engineer, II Circle, and to anicut and other irrigation conservancy lascars classed as items (O) to (X) in G.O., No. 840 W., dated 28th March 1893.

3. The Examiner was called upon in office-note No. 3009 C., dated 4th July 1899, to submit a complete list showing all classes of establishment charged to "Works". This list has been received from the Examiner, but as the items have not been properly arranged and as some of them have been repeated, a revised statement has been prepared in the Secretariat and appended to these Proceedings.

4. It is very desirable that there should be a clear understanding among the officers of the department as to the nature of appointments for which the sanction of Government is necessary, and it is therefore proposed to decide once for all in what cases the sanction of Government should be obtained.

5. Items 1 to 4 and 7 should, under G.O., No. 840 W., dated 28th March 1893, be charged to "Establishment" and items 5 and 6 should be charged to the same head under G.O., No. 483 W., dated 24th February 1893. Items 8 to 12 should also be debited to the head "Establishment". The sanction of Government is thus necessary in the case of items 1 to 12.

6. In G.O., No. 1328 W., dated 17th May 1893, it was ordered that all proposals for the employment of watchmen for buildings and stores should be submitted for the sanction of Government. A similar order was passed in G.O., No. 331 W., dated 2nd February 1899, in regard to gardeners and coolies employed in watering plants and trees in the compounds of buildings. The sanction of Government should, therefore, be obtained in the case of items 13 to 17.

7. Items 18 and 19 refer to men employed on petty supervision of works, and it was clearly stated in paragraph 3 of G.O., No. 331 W., dated 2nd February 1899, that the sanction of Government was not necessary in such cases.

8. Items 20 to 106 have hitherto been locally sanctioned, and if the sanction of Government is to be obtained in these cases, it will increase the labour and correspondence in all the offices from the Secretariat downwards, and in the Examiner's office. Superintending Engineers are therefore informed that the sanction of Government is not necessary in the case of these items.

9. Kavalgars (item 53) are the same as watchmen. If these men are employed in guarding buildings or stores, sanction of Government to their entertainment must be obtained. If not, their employment can be locally sanctioned.

10. In the case of night watchers (item 107), sanction of Government should be obtained if the men are employed for the care of buildings or stores.
