No. , dated 189 .

Much inconvenience is now felt in this office whenever papers have to be sent out expeditiously to places like Quindry which is ordinarily a day's journey for a person to go from here and be back. If a bicycle were provided for the use of the junior persons of this office who will be trained to use it much loss of time and exp. will be saved for the he

of juttas which are at present the most expeditious means of sending papers. In the public offices for which bicycles have already been provided, it is understood that the experiment has proved a success. It is therefore proposed to purchase a bicycle for the messengers of this office, for which purpose the accompanying indent is submitted for sanction. I have seen Mr. Voydeck Mount Road on this subject. He will supply a specially made new strong cushion typed machine for a person's use for Rs 180 for which sum he undertakes to teach the person to ride.
