SEPTEMBER.

Sanctioning the transfer of certain portions of the — to the Salt, Abkari and Customs Department for use as an office, quarters and out-houses for the Inspector, Arni Circle.

No. 2364 W., 8TH SEPTEMBER 1899.

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers:—

From S. D. PEARS, Esq., Executive Engineer, North Arcot Division, to the Superintending Engineer, IV Circle, dated 18th February 1898, No. 96 S.E.

In obedience to your No. 516/N.A., dated 30th October 1897, I have the honour to submit a plan of the portions of the old barracks at Arni to be transferred to the Salt Department. The square is one large, undivided patch of dry cultivation. The ground behind the Inspector's proposed quarters is also at present unenclosed. The Inspector wishes to have an area of 100' x 70' enclosed as a compound in front, i.e., in the square as well as in rear, and I understand that he proposes to erect godowns and a latrine in the front compound. As this would be certainly objected to by the Deputy Collector whose office overlooks the portion of ground in question, I should recommend that he should be given a compound in rear only and that no part of the square should be enclosed. All the other offices, lines, etc., in the square look out on to the square without any enclosure in front. If 100' x 70' is not enough, there is no objection to the rear compound being extended to as much as 120' x 100'.

No. 115/W.

Copy submitted to the Chief Engineer, Public Works Department, with a request that he will be good enough to obtain orders of Government to the proposed transfer to the Salt and Abkari Department of portions of the old barracks at Arni for conversion into quarters and an office for the Inspector of Salt and Abkari Department at the station.

The undersigned agrees with the Executive Engineer in thinking that no part of the square should be enclosed.

A tracing of the Fort of Arni, with plans of the proposed quarters and the office, is herewith forwarded.

COIMBATORE,
25th February 1898.

(Signed) A. H. GARRETT,
Supg. Engineer, IV Circle.

Proceedings of the Board of Revenue (Separate Revenue), Mis. No. 2157, dated 13th May 1899.

Resolution—Mis. No. 2157, dated 13th May 1899.

Replying to the endorsement of Government, Mis. No. 1278, Revenue, dated 12th March 1898, and with reference to the Government Orders noted in the margin, the Board begs to report that it has now decided to make no recommendation for

changes in the limits of the four circles of the North Arcot district and accordingly requests that the portions of the old barracks at Arni, marked B, C and D in the tracing plan, may be transferred to this department to serve as office, quarters and out-houses for the Inspector, Arni Circle. The portion selected for the office is the same

No. 2364 W., 8TH SEPTEMBER 1899.

as that selected by the Executive Engineer. The block selected for the quarters is 103 feet 6 inches long and 16 feet broad, and that for the out-houses 50 feet long and 12 feet broad. They are preferred to those selected by the Executive Engineer, as being more isolated. In the case of the quarters it will also be necessary to have a compound 110 feet broad on the rear.

(True Extract.)

(Signed) C. G. TODHUNTER,
Acting Secretary.

Mis. No. 1888, Revenue.

Transferred to the Public Works Department, with reference to endorsement No. 1291 C., dated 3rd March 1898.

OOTACAMUND,
29th May 1899.

(Signed) G. S. FORBES,
Secretary to Government.

From S. D. PEARS, Esq., Executive Engineer, North Arcot Division, to the Superintending Engineer, IV Circle, dated 22nd June 1899, No. 361/S.E.

In reply to your No. 311/N.A. of 16th June 1899, I have the honour to report that there is no objection to the proposals of the Board of Revenue.

2. It might perhaps be well to remind the Board that the site A was chosen by me for the quarters, because the then Inspector objected to the isolation of the western side of the square which adjoins the cemetery and is some way from other habitations. In their present proceedings the Board explain that the western side is preferred, because it is more isolated. This may accord with the views of the present Inspector who is I believe a European; but in case of his being succeeded by a Native, the former objection might be again raised and lead to difficulty. In every other respect the western side is to be preferred.

3. I await your final orders before handing over the buildings.

No. 354/W.

Submitted to the Chief Engineer, Public Works Department, with reference to his memo., No. 2676 C. of 12th June 1899, herewith returned.

To The Supts. Engr., IV Circle with 3 plans
" Rev. Dept.
" Examiner, P.W. Accounts.

returns on 5th Nov. 1855. These
buildings have from time to
time been allotted to various
offices &c. The Salt, Alkari &
Customs Dept. now require the
portions marked B, C & D. on
the plan to serve as an office
& quarters for the Inspector,
Armist. Circle. The Lt. Engineer,
Armist. division, selected the
site marked A on the plan
for the quarters, because the
Inspector objected to the
location of the western side
of the square which adjoins
cemetery & is some way from
habitations, but the Board
Revenue states which was referred
states that the Commissioner
after careful consideration,
selected the site at the
end of the square
marked C on the plan. The
portions marked B, C, & D
accordingly he transferred
Salt, Alkari & Customs Dept.,
the Board states that
it will be necessary to have
a road 110' broad in the
rear

rear of the quarters. The
Lt. Engr. recommends that
the Inspector should be
given a compound in the
rear only, & that there is
no objection to its being
extended to as much as
120' x 100'. ^{It is considered that} Perhaps 110' x 70'
will be ample. Both the
Executive & the Supts. Engineer
are agreed that no part
of the square in front should
be enclosed, as all other
offices, lines, &c. in the square
look out on the square
without any enclosure in
front.
